Discover the magic of slow cooking

Excellent taste, better nutritional value and also significantly less work. All these are advantages that will the **ECG PH 6530 Slow Master** slow cooker provide for you when cooking your favourite dishes. You can cook, stew or roast the individual ingredients in it very gently, which brings with it a whole range of positives.

Using our electric pot you will experience **more pronounced taste and amazing juiciness**. In addition, during slow cooking not so many vitamins and other important nutrients are lost, therefore the resulting meal is **higher quality and nutritionally more valuable**. And last but not least, when using the ECG slow cooker, the **cooking of meals is child's play** – just put the ingredients in one common vessel, set the power and temperature and then just wait for the result. You don't have to continuously stir or add water, and you don't have to worry about unwanted burning either.

For sauces, meat and also desserts

You can prepare many types of food in our slow cooker. Whether you are preparing a goulash, broth, or a sweet dessert, the device allows you to adapt the preparation to the given type of dish. You have here available **3 operating modes** (Low, High, Keep Warm) and you can also set an **accurate cooking time** (from 30 minutes up to 12 hours). The operation of the cooker is plain sailing thanks to the **electronic control panel** with clear **LED display**.

The usability of the ECG slow cooker is further expanded by its accessories – special **pulled meat claws** are part of the basic package.

Ceramics, stainless steel and glass as a guarantee of quality

You will also appreciate the top craftsmanship on the slow cooker ECG PH 6530 Slow Master. Its **inner removable vessel is ceramic** and you will also appreciate its large volume of **6.5 litre**. The outer pot of the device is made from **high-quality stainless steel**. And the **glass lid** is **heat-resistant** while it also has a **heat-insulated handle** made of durable plastic for your safety.

The pot works on nominal input **270 W** and its nominal voltage is **220–240 V** (50/60 Hz).

Enjoy the pulled meat

Our slow cooker is also an ideal choice for preparing irresistible pulled meat. Whether you're making this delicacy from pork neck or you prefer pulled pork shoulder, the ECG PH 6530 Slow Master prepares the given piece of meat absolutely perfectly. And now the main thing – you can handle the final portioning of meat into small pieces with ease thanks to the special **claws for pulled meat** which are part of the basic package.
