Modern Radio Listening

Do you listen to the radio while working, cleaning, or just for relaxation? If so, we'd like to introduce you to a device that will provide you with an excellent radio listening experience. It's called the **ECG B.BOLD 3200 CUBO**, and it's an advanced radio receiver equipped with a digital **FM tuner** (with memory for 30 stations). It can connect to **Wi-Fi** and also supports wireless **Bluetooth** technology. With this device, you can listen not only to traditional radio stations but also to more than 26,000 internet radio stations from around the world. And if that's not enough, you can also stream music, podcasts, and audiobooks from your smartphone to it. This radio will surely delight you with its high-quality **wooden construction** and **stylish design**, making it suitable for any interior.

Enjoy Without an Electrical Outlet

With this radio, you can listen to your favorite radio stations even in places where you don't have access to electricity. The device is equipped with a built-in **lithium-ion battery** with an impressive capacity of **2000 mAh**. The battery can be charged using the modern **USB-C** interface.

Treat Yourself to Quality Sound

Thanks to its **3W (RMS)** output power, the ECG B.BOLD 3200 CUBO radio will deliver the broadcasts of your favorite stations in very good sound quality. Furthermore, the device offers a **3.5mm line output**, so you can connect external speakers if desired. The radio's equipment also includes a **3.5mm stereo connector**, allowing you to use traditional **headphones** with it.

Color Display and Remote Control

Operating the ECG B.BOLD 3200 CUBO radio is a breeze. The device features a **set of clear buttons**, a simple **rotary knob**, and a **2.4-inch color TFT display**. Additionally, it comes with a practical **remote control**, making its operation even more convenient.
