ECG RS 440 White Lite

Hand Mixer

Product code: 100002131902
EAN: 8592131000933

- Versatile operation thanks to 5 speed steps and TURBO button
- Powerful 400W motor for efficient processing of many types of raw materials
- The package includes complete accessories: 2 whisks and 2 kneading hooks
- Comfortable operation and a secure grip thanks to the ergonomic handle
- Safety fuse against overheating for reliable operation

- This powerful hand mixer with a 400 W motor can handle everything from mixing dough to preparing delicate creams or delicious cocktails.
- Thanks to 5 speeds and the TURBO function, you can easily handle various recipes – from lightly whipping egg whites to kneading dense yeast dough.
- Package includes 2 whisks and 2 kneading hooks.
- You can use the kneading hooks for leavened or puffed dough, potato dough for dumplings or mixture for potato pancakes.
- The ergonomic handle ensures comfortable work and a firm grip.
- Control is simple – just switch the speed selector to the desired level.
- The high-quality plastic design with an elegant black finish gives the appliance a modern look.
- The safety fuse against overheating guarantees reliable operation and a long service life.
- Noise is less than 85 dB.
- The classic mains power supply (220-240 V; 50-60 Hz) is reliable and practical.
- The length of the cable is 120 cm, which provides enough space for comfortable work.
- The dimensions of the whisk are 8.6 x 18.9 x 14 cm and the weight is 1.18 kg.

A versatile hand whisk

The hand mixer **ECG RS 440 White Lite** is a welcome companion for all lovers of home cooking and baking. Thanks to the **powerful 400W motor**, it can handle the preparation of various types of dough and is also useful for preparing mashed potatoes, soups or even fruit cocktails. **The timeless white design made of high-quality plastic** ensures that the beater fits perfectly into any kitchen.

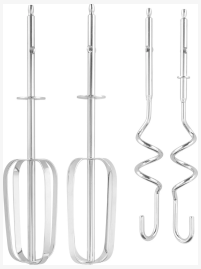
Selectable speeds for different recipes

This device offers **5 speed steps**, which allow you to adapt the intensity of mixing to a specific recipe - the beater can easily handle **mixing, whisking, mixing, rubbing and whipping**. For the most demanding tasks, there is also a **TURBO** function available, which will provide maximum performance without delay - for example, during the final whipping of egg whites or more intensive kneading of yeast dough. **Automatic speed control** ensures stable performance during the entire mixing process.

Comfortable and effortless

The **Ergonomically shaped handle** with which this beater is equipped guarantees a comfortable grip and also gives you perfect control over the device even during prolonged use. Thanks to the **compact design** (height 18.9 cm, width 8.6 cm, depth 14 cm) and low weight (only 1.18 kg), work on more demanding recipes can be done effortlessly. Last but not least, you will definitely appreciate the **sufficiently long power cable (120 cm)** on the whisk, which will give you the freedom you need when working in the kitchen. The beater will also please you with its easy operation - just switch the **speed selector** to the desired level and the device will start mixing.

Complete accessories for universal use



In addition to the whisk itself, you will also find the necessary accessories in the package. **2 whisks** are ideal for working dough, egg whites, whipped cream, mayonnaise and puree or for mixing/whisking sauces and custard powders. **2 kneading hooks** will serve you well when preparing leavened or puffed dough or potato dough for dumplings and mixture for potato pancakes. All attachments can be easily replaced with a practical **button for removing brooms or hooks**.

Safety and reliability in the first place

The ECG RS 440 White Lite beater also has your safety in mind. Therefore, it also has an **overheating fuse**, which automatically switches off the device in case of excessive heating, which protects the motor and extends the life of the beater. As for the power supply, the beater is connected **to a standard socket** (voltage 220-240 V with a frequency of 50-60 Hz). During operation, it reaches a noise level below 85 dB.
