Smart entertainment in Full HD

With the **ECG 40 FS01T2S2** television, your living room will also be filled with great audiovisual entertainment that you won't be able to tear yourself away from. This smart device offers you a wide range of **streaming services, Internet archives and other content sources**, from which every member of your family is sure to find something to their liking.

Regardless of whether you're watching a movie or browsing entertaining videos on the web, you can count on perfect picture and sound quality. Our television boasts a great **Full HD** resolution and has built-in stereo speakers with **NICAM**-tuned audio.

Take advantage of your internet connection

Connect the ECG Smart TV to the internet and the gateway to entertainment that suits your taste will open. The device has a clear **Linux** operating system installed, in which you have a classic **web browser**, social network applications **Facebook** and **Twitter** as well as popular streaming services such as **Netflix, YouTube, YouTube Kids** or **Amazon Prime Video**. This way, you can quickly and easily access hot series hits, videos with practical instructions and even fairy tales for the little ones.

Of course, this TV also supports **hybrid broadcasting (HbbTV)**, i.e. the popular **red button**. With a single press, you will be transported to a world of web content, where older episodes of your favorite series or broadcasts of sports competitions that take place simultaneously with the match you are currently watching are waiting for you.

TV broadcast signal of your choice

The **Triple tuner** of the ECG 40 FS01T2S2 TV gives you the choice of where the digital broadcast signal that you will watch in the comfort of your home will come from. The device supports both terrestrial broadcasting in the modern **DVB-T2** standard (with **H.265/HEVC** encoding), **cable (DVB-C)** and **satellite (DVB-S2)**. The choice is entirely yours.

Connection ready

A game console, through which you can play action shooters, racing simulators and strategies. Speakers that will provide you with a class better sound. Or a laptop, the content of which you can play on the big screen at any time. All of these are devices that can be connected to the ECG TV very easily - just use one of the **three integrated HDMI ports**.

In addition, the connector equipment of our smart TV also includes a **USB input**, which in turn allows you to play movies and other media from portable flash drives.

Elegance and practicality

The TV is designed in a **timeless black design** and includes an **elegant stand**, which can be easily removed if necessary. If you do so, you can hang the device on the wall - the ECG 40 FS01T2S2 is compatible with TV brackets using the standard **VESA (200 × 100)** system.

Whether you place the ECG TV on a table or hang it on the wall, we are sure that you will have a lot of great fun with it.
