Freshly ground coffee every morning

Do you love the smell of freshly ground coffee and can't imagine starting a new day without your favorite beverage? Coffee clearly belongs to every morning. The **ECG KM 1412 Aromatico** coffee grinder will help you with perfect grinding. It is equipped with special grinding stones that preserve the rich aroma of coffee. A powerful 200W motor also contributes significantly to great results.

You can prepare tailor-made coffee thanks to the rotary knob at the top of the grinder. You can easily set the **coarseness of the grind up to 18 levels**. All depends on your preferences.

Above standard capacity

Despite its relatively compact dimensions (height only 26.5 cm), the ECG grinder is equipped with a sufficiently large and transparent coffee bean hopper. **Removable hopper** holds up to 240 g of coffee beans.

The ground coffee holder with capacity 140 g is extra large. To give you an idea, you can make from this full container **up to 12 cups of coffee** for a larger amount of visitors.

Quick and easy cleaning

The ECG KM 1412 Aromatico coffee grinder is very **easy to clean** in difference to other models. Therefore its maintenance is not only simple, but quick as well.

The grinder is equipped with the **automatic shutoff** function for safety reasons. Perfect stability during operation is ensured by a solid and durable construction and practical anti-slip feet.

The well thought out black stainless steel design is perfect for any modern household. The grinder includes a special space for storing the power cable. So it won't get in the way when idle.
