Easy hair styling with a curling iron from ECG

The **ECG KE 2451 Simply Curly** conical curling iron is perfectly adapted to the needs of every woman. Depending on the type of your hair and the desired hairstyle, you can set the operating temperature in the range from 80 to 230 °C. Convenient LED display informs you about the current setting. The curling iron heats up in a moment to the working temperature and you can start styling.

With an ECG curling iron with a diameter ranging from 13–25 mm, you will always achieve a natural look. The high-quality ceramic surface of the tongs in combination with the ionizer ensures gentle hair treatment. The curling iron excels in intuitive operation and even a total beginner can handle it. Maximum ease of use is ensured by a 1.8 m power cable with a rotating end.

For safety reasons, the curling iron is also equipped with practical protection against overheating.
