WEIGHT WITH PACKAGING (KG)	0.5

Hairstyle like from a hairdresser

The **ECG ZV 1255 Ceramic Wide** hair straightening iron will ensure perfect styling. In addition, the combination of the ceramic surface of the ironing areas and the ionization function will ensure that this hairstyle will be as gentle on your hair as possible. Wider ironing areas (90 × 42 mm) and slim design make handling the hair straightening iron easier. Depending on your hair type, you can set the operating temperature from 120 to 210 °C. The ironing surfaces will be heated literally in a moment. A practical display informs you about the current temperature setting.

Freedom during hair ironing is ensured by the extra-long power cable reaching 1.8 m and a rotating 360° end to prevent it from tangling and twisting. The manufacturer has equipped the ZV 1255 Ceramic Wide iron with an automatic shutoff after 60 minutes for safety reasons. The package also includes a practical travel heat-resistant case for easy storage.
