Excellent espresso in the comfort of home

You no longer have to leave the warmth of home for good coffee. You can easily prepare it yourself. Are you one of the real coffee lovers and you can't imagine the morning and even all day without it? Reach for a **good quality coffee machine** that can match the performance of profgessional machines.

We are introducing the **ECG ESP 20301 White** lever coffee machine. Real gourmets will appreciate it, those, who do not want to just press a button and wait for what will flow. The ECG lever coffee machine is intended for coffee lovers who want to participate in the entire process of its preparation and for whom this process is a real ritual.

Powerful lever coffee machine

The ECG coffee machine will impress you at first glance with its **white design** perfectly matched by the chrome elements. The front part is then dominated by the main rotary selector and the necessary operation indicators. This model will really stand out on your kitchen counter.

However, appearance is not all. **Professional pressure pump** with a respectable pressure up to 20 bars is hidden **under the hood** of the appliance. So you can be sure that the coffee will be exactly the way it suits you. And you don't have to enjoy it by yourself. The coffee machine is equipped with an extra large **removable water container** with a volume of 1.25 litres. You can easily treat a larger number of visitors with coffee.

You can prepare everything from americano to cappuccino

You don't always feel like a classic espresso. You or your loved ones sometimes get a taste for another coffee beveragfe as well. Even in this case, the ECG lever coffee machine will not leave you stranded. It also includes **rotating steam nozzle designed for frothing milk**. There is nothing stopping you from making a cappuccino or your favourite latte.

However, this coffee machine can handle much more. It has a quick pre-brewing function and you will also find a special space for **heating the cups**. A contact with the cold parts of a cup or glass could negatively affect the taste of coffee. The accessories also include a stainless steel filter for the E.S.E. capsules (Easy Serving Espresso).

And what can you prepare in the comfort of your home beside an espresso? Using the ECG ESP 20301 White lever coffee machine, you can easily handle a many coffee delicacies such as americano, cappuccino, ristretto or latte macchiato. Enjoy your coffee!
