More than just a meat grinder

Do you prefer home made products from scratch? Do you want to make your own sausages or grind meat so that you know exactly what it contains and that it contains 100% meat and no other substitutes? There is nothing easier than buying an efficient and **high-quality meat grinder**. In addition, it **can grate fruit and vegetables** and you can even make your own **breadcrumbs**.

An excellent choice is an electric meat grinder **ECG MG 2510 Power**, with which the preparation of any meat product will be really a child's play for you. Thanks to the powerful 500 W motor, you will have minced meat in a moment, completely effortlessly. And there is almost no cleaning; the maintenance of the device is really very easy.

Home made steak tartare and breadcrumbs

The excellent results of the ECG MG 2510 Power grinder are also due to **high-quality self sharpening blades**, grinding knife and hole plates made of durable steel. You have **3 interchangeable grinding hole plates** available – fine (3 mm), medium (5 mm) and coarse (8 mm). The grinder is ideal for grinding different types of meat or you can combine types according to your preferences. No store bought **tartare** will be up to 100 % as your own, home made one from your chosen beef.

In addition, the ECG grinder can grate fruit and vegetables. Also, you can use **4 kinds of graters** – coarse, slicing, fine and extra fine. In addition, it can breezily handle dry bakery products, so you can also make homemade breadcrumbs.

A pleasant bonus is also the **REVERSE function**, which you will certainly use often.

You will enjoy the above standard accessories

After unpacking, you will find that you can really do anything with the grinder. In addition to the device itself, you will find a **whole range of practical accessories** in the package. The accessories include a tamper, screw conveyor, blades, 3 types of hole plates, machine with a funnel, a fixing screw, a sausage attachment, a kebbe attachment, separator and complete accessories for grating fruit, vegetables and making breadcrumbs.

The durability and long service life of the filling hopper, the inlet funnel, hole plates and the screw conveyor shaft are ensured by the material used. It is a solid aluminium alloy, thanks to which you can be sure that these components will serve you for a really long time.

For comfortable use, the grinder is equipped with practical anti-slip feet, so it doesn't move during operation. The equipment also includes a safety **protection against overheating**. A 1 m long power cord ensures sufficient freedom of use.
