Favorite foods in a healthier form

Do you love crispy fries, croquettes or perhaps perfectly seasoned chicken drumsticks, but are you scared by how unhealthy all these foods are? In that case, allow us to introduce you to the **ECG AF 5500 Crunchy** hot air fryer, with which you can easily prepare all the aforementioned dishes (and many others) in a much healthier form. Thanks to the modern **fast-circulating hot air** system, the ingredients will not melt in fat - you can turn them into delicious delicacies using just a few drops of oil, or even without it at all. Thanks to the technology used by our hot air fryer, the preparation of your favorite dishes is not only **healthier**, but also **faster** and, last but not least, **energy-efficient**.

From schnitzels to fries to dessert

To allow you to prepare many different dishes in the **ECG AF 5500 Crunchy** hot air fryer, this nice appliance allows for variable **temperature and time** frying settings. You can easily prepare healthier fries, cutlets, fish, vegetables and even a sweet dessert. The door is simply open to a wide variety of interesting recipes. The fryer offers **8 programs** with precisely preset times and temperatures (for preparing specific dishes), or you can set the temperature and time yourself (temperature in the range of 80–200 °C, time up to 60 minutes). You can control it from the left rear thanks to the large **LED panel** with modern **touch control**.

Thoughtful design

We designed the **ECG AF 5500 Crunchy** hot air fryer to be reliable, safe and to be comfortable and trouble-free for you at all times. Among other things, we have equipped it with a **transparent window**, through which you can always see the food being prepared during preparation. We have given the **removable frying basket** an optimal volume of **5.5 liters** and provided it with a **non-stick copper surface finish**. And to prevent you from burning yourself on the appliance, we have also equipped it with a **cool cover and a heat-insulated handle.** The safe operation of the fryer is also ensured by **non-slip feet** that keep it stable in place, as well as integrated **overheating protection**.
