Healthier frying, baking and roasting

If you like to indulge in crispy fries, croquettes or chicken wings, but at the same time want to eat healthy, we have a great tip for you. Get the **ECG AF 8300 Dual Fry** hot air fryer and prepare your favorite dishes much healthier! This modern appliance uses a **fast circulating hot air** system, so you can prepare irresistible fried, baked or baked delicacies with just a few drops of oil, or even without it at all. A great advantage here is the possibility of preparing **two different dishes at the same time**, which is guaranteed by the presence of **2 independent cooking chambers** (each of which can have a different program or temperature set). With the hot air technology used by the ECG fryer, food preparation is also **very fast** and also **energy-efficient**. Not only can it ensure a healthier lifestyle, but it will also save you time and money.

It can handle a lot of recipes

In the ECG AF 8300 Dual Fry hot air fryer, you can quickly and easily prepare many different dishes, from fries and schnitzels to fish and vegetables to sweet desserts. The appliance allows for variable **temperature settings (80–200 °C) and time (up to 60 min)** and also offers **8 programs** with preset times and temperatures that are optimal for preparing specific dishes. You can easily manage the fryer thanks to the large **LED panel** with modern **touch control**.

Reliability

We designed the ECG AF 8300 Dual Fry air fryer to be reliable, safe and to be comfortable and trouble-free for you at all times. For example, we equipped one of the cooking chambers with a **transparent window**, through which you can visually check the food during preparation at any time. We gave the **removable frying baskets** a **large capacity of 8.3 l (5.2 + 3.1 l)** and, for easy maintenance, we provided them with a **non-stick copper surface**. And to prevent you from burning yourself on the appliance, we also equipped it with a **cool cover** and **thermally insulated handles**. The safe operation of the fryer is also ensured by **anti-slip feet**, which hold it firmly in place, as well as integrated **overheating protection**.
