ECG FORZA 5200 Fuego

Contact grill

Product code: 100001915318
EAN: 8592131309333

- Three grilling modes (baking, grilling, BBQ)
- Separate thermostats for the upper and lower plates
- Digital control with display for easy temperature and timer settings
- Meat thermometer with kitchen minute function included in the package
- Easy maintenance thanks to non-stick plates, drip tray and cleaning scraper
- Magnetic attachment of grill plates
- Grill surface size: 33x24 cm

- Adjustable temperature (80-230 °C; steps of 15 °C)
- 2 thermostats, thanks to which the temperatures of the upper and lower plates can be set separately
- Size of grill plates 240 × 330 mm
- Timer that turns off the grill automatically after a set time (1-99 minutes)
- Interchangeable baking plates for grilling various dishes (with smooth surface, with ribbed surface)
- Non-stick surface that guarantees easy maintenance
- 3 grill positions: baking, grilling, BBQ (possibility of opening the grill up to an angle of 180°)
- Easy operation thanks to digital control with display
- Removable drip tray for excess grease for easy maintenance
- Heat-insulated handles
- Folding legs for setting the optimal angle of the grill
- Non-slip pads for excellent stability
- Light and sound signaling
- In the package, practical accessories, incl. a meat thermometer with the function of a kitchen timer and a scraper for cleaning
- Standby consumption less than 0.50 W
- Power 1650-2000 W
- Voltage 220-240 V (50/60 Hz)
- Power cable length 100 cm
- Stainless steel cover
- Dimensions 18 × 40 × 38 cm
- Weight 5.61 kg

Technical specification

Input power (W)	2000
Voltage/Frequency (V/Hz)	220-240 ~ 50/60
Power Cord length (cm)	100
Heat isolated handle	Yes
Lock against opening	Yes

Enjoy grilling all year round

Do you want perfectly grilled meat, juicy vegetable dishes or crispy panini? With the **ECG FORZA 5200 Fuego** contact grill, you can prepare all these delicacies in no time, at any time of the year. This top-notch grill can be used in the comfort of your home, while offering a number of functions and advantages. It offers you **3 grilling modes** (searing, grilling and BBQ) and **2 types of baking plates** (ribbed plates are great for baking panini, while smooth plates are perfect for sautéing vegetables or seafood) with a convenient **magnetic attachment** of the plates. The package also includes a **meat thermometer with a kitchen timer function**, with which you have perfect control over whether your steak is cooked exactly to your liking. So, look forward to culinary experiences that won't have a single flaw!

Great results thanks to precise temperature control

Thanks to the **two thermostats**, you can **set the temperature of the upper and lower plates separately**, within the range **80–230 °C** (in 15 °C steps). This way, you can easily adjust the temperature exactly to the type of food you are preparing – whether you want to quickly grill a steak on a hot plate or just gently toast sandwiches, the result will always be worth it.

3 grilling modes at your service

The ECG FORZA 5200 Fuego grill offers **three different positions**: searing, grilling and BBQ. In the **searing** position, the upper plate adapts to the thickness of the food, and you can determine whether the food should be seared directly or whether there should be a space between the food and the plate for gentle heating from above. This mode is ideal for preparing sandwiches or paninis, for example. In the **grill** position, you can use only the lower plate, while the upper plate remains fixed in an upright position (90°). This mode is suitable for preparing dishes that require one-sided grilling, such as open sandwiches or filled tortillas. If you want to use the full potential of the grill, open it to the BBQ position, i.e. to an angle of **180°**. This gives you double the grilling surface, which is perfect for preparing larger quantities of food - for example, you can grill meat on one side and vegetables or side dishes on the other.

Easy maintenance and non-stick surface

Who wants to clean their grill in a complicated and time-consuming way? Maintenance is not a problem with this model. The **non-stick surface** of the replaceable baking plates and the removable **drip tray** that catches excess fat, keeping the grill clean during and after grilling, are all taken care of. The package also includes a **scraper** that you can use to easily remove dirt. The size of the grill plates on this grill is 240 × 330 mm.

Digital control with timer

Thanks to the **digital control** with a clear **display**, operating the ECG FORZA 5200 Fuego grill is a breeze. In addition to the ability to set the temperature, you will also appreciate the **timer (for 1–99 minutes)** - after the set time has elapsed, the grill will automatically turn off, which will be notified by an audible signal. You no longer have to worry about overcooking your food.

Practical accessories and maximum safety

The included **grill thermometer** with temperature alarm ensures perfectly cooked steaks every time by alerting you when the center of the meat reaches the desired set temperature. This contact grill also stands out with its elegant **stainless steel design** and is equipped with **heat-insulated handles** and **non-slip pads** - these elements ensure its safe use without the risk of burns or unwanted movement of the device on the worktop. The **tilting feet** are also practical, allowing you to set the optimal grill angle - for example, when preparing ox eyes or pancakes, you can easily create a perfect plane, while for preparing fatty meat, you can set the grill to a slight angle that allows the drippings to drain into the drip tray. ECG FORZA 5200 Fuego is simply the perfect solution for anyone who loves simple and quick grilling with maximum control over food preparation. Get it for your kitchen and become a grilling master!
