Modern Radio Listening

Do you listen to traditional radio while working, cleaning, or simply for relaxation? If so, we would like to introduce you to a device that will enhance your hobby with style. It's called the **ECG B.BOLD 3200 CUBO**, and it's an advanced radio receiver that not only features a digital **FM tuner** (with memory for 99 stations) but can also connect to **Wi-Fi**. With it, you can access over **30,000 internet radio stations** from around the world. It also supports wireless playback of music, podcasts, and audiobooks from mobile devices through Bluetooth. And as if that's not enough, UPnP and DLNA support ensure seamless content streaming from your home network. You'll also be pleased with the radio's high-quality **wooden construction** and **stylish design**, making it a perfect fit for any interior.

Enjoy Without an Electrical Outlet

You can listen to your favorite radio stations with this radio even in places where you don't have access to electricity. The device is equipped with a built-in **lithium-ion battery** with an impressive capacity of **2000 mAh**, which provides up to 12 hours of operation on a single charge. Charging the battery is handled by the modern **USB-C** interface.

Treat Yourself to Quality Sound

Thanks to its **3W (RMS)** output power, the ECG B.BOLD 3200 CUBO radio will deliver the broadcasts of your favorite stations in very good sound quality. Furthermore, the device offers a **3.5mm line output**, so you can connect external speakers if desired. The radio's equipment also includes a **3.5mm stereo connector**, allowing you to use traditional **headphones** with it.

Color Display and Remote Control

Operating the ECG B.BOLD 3200 CUBO radio is a breeze. The device features a **set of clear buttons**, a simple **rotary knob**, and a **2.4-inch color TFT display**. Additionally, it comes with a practical **remote control**, making its operation even more convenient.
