A slightly smarter kettle

The electric kettle **ECG RK 1799 Smart White** is a stylish addition to your kitchen that combines modern technology with an elegant design. Thanks to **its white surface,** it fits into any interior and its functions will impress not only tea and coffee lovers, but also parents who are looking for a reliable helper for preparing baby food. It enables **precise settings water temperature** (in the range of 40-100 °C) and additionally offers **pre-set functions** for the most frequently prepared drinks: white tea, coffee, green tea and infant formula - you can prepare all of this with a single touch **of the touch screen** . Whether you just want the delicate aroma of white tea, you want to enjoy properly prepared coffee, or you need to heat water to the ideal temperature for baby milk, this kettle can handle it with ease.

Temperature maintenance function and intuitive control

The clever **temperature maintenance function** allows you to always have optimally warm water at hand. You can operate the kettle thanks to the left rear **color touch screen** , which allows convenient selection of functions and also shows you the current water temperature. Thanks to **the option to turn off the backlight** of the display, the kettle does not have to disturb anyone even at night.

Reliability and safety first

Kettle ECG RK 1799 Smart works with an input of **1850–2200** W. At the same time, the safety **fuse against overheating** and the function **of automatic shutdown** after the end of cooking ensure that you can use this appliance with complete peace of mind. In addition, **anti-slip pads** on the rotating base guarantee maximum stability. And safe operation is also ensured by the reliable **Strix connector** , which ensures a stable connection of the kettle to the base and a long service life of the appliance. When the kettle is not in use, you can **wind the supply cable into the space in the rotating base** , so that it does not interfere unnecessarily on the kitchen counter.

Comfortable details for the comfort of the whole family

Due to **the volume** with a capacity **of 1.7 litres,** this kettle is also suitable for larger families or more numerous visitors. You will certainly appreciate the practical **indicator of the amount of water**, **the ergonomic handle** or the sufficiently long **power cord (75 cm)** - all this makes everyday use easier. In addition, this kettle is **energy efficient**, as it consumes less than 0.5 W in standby mode. The materials that come into contact with water have **the necessary certificates**, so you can be sure of **their safety** . With the ECG RK 1799 Smart kettle, you can simply enjoy moments of peace with a cup of your favorite drink without having to compromise between quality, comfort and practicality. Along with it, not only technological sophistication comes to your kitchen, but also a bit of luxury and joy from daily rituals.
