

ECG ERM 11432 WE Refrigerator

Product code: 100002104888

EAN: 8592131000445

- Enough space for food thanks to the volume of 230 liters
- Clear layout with 4 glass shelves, 4 door compartments and a drawer for fruit or vegetables
- Static cooling system for even cooling
- Flexible setting of internal temperature using mechanical control
- Possibility to change the door opening direction for flexible positioning

- Total volume 230 liters
- Monoclimatic design (all volume is intended for cooling)
- Possibility to adjust the internal temperature flexibly using a simple mechanical control with five levels (1 = warmest, 5 = coldest)
 - Recommended temperature inside the refrigerator 4 °C (in normal operation, it is recommended to set the thermostat to medium values)
- Clear arrangement of the interior space (4 glass shelves + practical drawer for fruit and vegetables + 4 compartments in the door)
- Interior lighting

- Noise of only 40 dB (noise class C)
- Energy consumption 102 kWh/year
- Energy class E
- Energy Efficiency Index (EEI) 100
- Climatic class N/ST (the temperature around the appliance can be from 16 °C to 38 °C)
 - Manual defrost
- Classic free-standing design
- Timeless white design that fits into any interior
- Recessed handle for convenient opening and closing of the door

- Possibility to change the door opening direction for flexible placement of the appliance
 - Possibility to adjust the height of the legs for precise balancing of stability on uneven surfaces
- Static cooling system, which consists in the natural circulation of air inside the appliance
 - Ecological refrigerant R600a
- Extended warranty (5 years)
- Dimensions 142 cm (height) × 55 cm (width) × 55 cm (depth)
- Weight 40 kg

Practical and economical monoclimate refrigerator

Are you looking for a refrigerator that offers you enough space for your food and adds reliable performance? Then the **ECG ERM 11432 WE** is a great solution for you. It is a practical **monoclimate refrigerator** that will keep your food and drinks fresh while pleasing you with its clear arrangement. Its **timeless white design** also makes it an excellent choice for any interior. The dimensions of this refrigerator are **142 cm (height) × 55 cm (width) × 55 cm (depth)** and its weight is **40 kg**.

Classic design and various placement options

The classic **freestanding design** ensures that this refrigerator will fit anywhere, from your kitchen to the pantry to the warehouse of your restaurant or café. This is also facilitated by the **possibility of changing the direction of door opening**, thanks to which you can adapt the placement of the appliance to the specific layout of the given space. For maximum stability, you can also simply **adjust the height of the legs**, which you will appreciate especially on uneven surfaces. And thanks to the **N/ST** climate class, this refrigerator can operate reliably in environments with an ambient temperature of **16 to 38 °C**, which makes it a great choice for homes, offices and spaces with larger temperature fluctuations. The refrigerator is equipped with a **recessed handle**, which does not disturb the clean appearance of the appliance and at the same time ensures comfortable opening and closing of the door.

Enough space for your groceries

With a capacity of **230 liters**, this monoclimate refrigerator provides enough space to store everything you need. The interior is practically divided by **four glass shelves**, a **fruit and vegetable drawer** and **four door compartments**. Thanks to this arrangement, you will always have an overview of your food, which will save you time and energy when searching for ingredients. Of course, this refrigerator also has a practical **interior light**.

Efficient cooling, great flexibility and easy operation

The **Static cooling system** ensures that this refrigerator is **evenly cooled** – it uses the natural circulation of air inside the appliance. There is no need for a noisy fan, which contributes to quiet operation. In addition, the simple **mechanical control** allows for flexible **temperature settings in five stages** – from the warmest (1) to the coldest (5) – so you have perfect control over the cooling of food and drinks with this refrigerator. The **recommended temperature** of 4 °C is ideal for preserving the freshness of most common foods. It is therefore recommended to set the thermostat to a medium setting for normal operation. Defrosting is manual with this appliance.

Economical, quiet and environmentally friendly operation

The ECG ERM 11432 WE refrigerator, with an annual energy consumption of just **102 kWh**, is in **energy class E**, so you can smartly reduce your electricity costs with it. The noise level of just **40 dB** (noise class C) also guarantees quiet operation, so this appliance will not disturb you even in quiet rooms. This model of monoclimate refrigerator also uses the **ecological refrigerant R600a**, which is not only efficient in cooling, but also environmentally friendly.
