

ECG EWS 60120 iSteam Washing machine

Product code: 100002129738

EAN: 8592131000711

- Holds up to 6 kg of laundry
- 16 programs for washing different types of clothes
- Spinning speed up to 1200 revolutions per minute
- Pre-wash with steam for cleaner, softer and hygienically treated laundry
- Energy class A as a guarantee of economical operation

- Classic front loading
- Smaller capacity 6 kg
- Spinning speed of up to 1200 revolutions per minute as a guarantee of thorough wringing
- Reliable BLDC motor with quiet operation and long life
- Quality stainless steel drum (volume 39.5 l, diameter 48 cm) designed in a Honey Comb design, which protects your laundry and makes washing more efficient
- Unique pre-wash technology with steam – steam penetrates the laundry and prevents fiber damage; your clothes are then softer and smoother after washing

- 16 washing programs (Mix, Cotton, Baby clothes, Night program, Hand wash, Blouses/Shirts, Bedding/Curtains, Anti-allergic, Self-cleaning, Eco 40-60, Mix 20 °C, Rinse + spin, Spin, Jeans / dark clothes, Wool, Quick 15')
- Additional function Extra rinse, which allows you to adjust the number of rinses for the selected program

- Possibility to add laundry during washing
- Practical function of delayed end of washing (up to 24 hours)
- Safety Child Lock
- Automatic drum door lock that prevents dangerous opening during washing
- Intuitive control with rotary selector, simple buttons and clear display
- Czech descriptions of control elements
- Automatic stability compensation and laundry balancing for even and trouble-free washing
- Automatic recognition of the amount of laundry loaded and Eco Logic technology, which automatically saves water and energy when the washing machine is half full
- Sound indication of the end of washing (can be turned off)
- Noise 75 dB (noise emission class B)
- Self-cleaning program that guarantees easy and efficient maintenance of the washing machine
- Power 1900 W

- Work efficiency index 1.031
- Energy Efficiency Index (EEI) 44.1
- Energy consumption per 100 cycles 35.7 kWh
- Weighted water consumption per cycle 43 l
- Duration of the reference program 3:18 h (at half load 2:30 h)
- Energy efficiency class A
- Washing machine opening diameter 29.9 cm
- Door diameter 45 cm
- Possibility of opening the door up to an angle of 130°
- Power cord length sufficient 160 cm
- Nominal voltage 220-240 V (50 Hz)
- Dimensions 598 (w) × 845 (h) × 445 (d) mm
- Inlet and waste hose included in the basic package

Technical specifications

Max. power (W)	1900
Rated capacity (kg)	6
Max. number of revolutions per minute	1200
EEI	44.1
Energy efficiency class	A
Washing efficiency index	1.031
Energy consumption per 100 cycles (kWh)	35.7
Weighed water consumption per cycle (l)	41
Length of reference program (hrs.)	0.1375
Length of the ½ load reference program (hrs.)	0.10416666666667
Noise (dB)	75
Noise emission class	B
Turned off (W)	0.5
Automatic detergent dispensing	no
Twin Jet System	-
Steam function	Yes
Motor type	BLDC
Wifi connection	no
Possibility of hot water connection	no
Self-cleaning function	Yes

Products specifications

Add laundry during washing	Yes
Stability compensation system	Yes
Laundry balancing system	Yes
Aquastop hose	no
Supply and drain hoses in the package	Yes
Delayed start/ End	Yes

Programs

Number of programs	16
Auto program	no
Temperature setting button	Yes

Design

Drum material	Stainless
Drum volume (l)	39.5
Drum diameter (cm)	48
Max. door opening angle (°)	130
Washing machine opening diameter (cm)	29.9
Door diameter (cm)	45
Power cable length (cm)	120

Weight & dimensions

WIDTH (MM)	598
HEIGHT (MM)	845
LENGTH (MM)	445
WEIGHT (KG)	47.88

Weight & dimensions (Brutto)

WIDTH WITH PACKAGING (MM)	652
HEIGHT WITH PACKAGING (MM)	870
DEPTH WITH PACKAGING (MM)	488
WEIGHT WITH PACKAGING (KG)	50,96

A reliable washing machine at an affordable price

ECG EWS 60120 iSteam is an affordable washing machine with classic front loading that will please you with its modern design, **easy operation with understandable icons** and advanced technologies for perfect care of your clothes. Among them, the **pre-wash with steam** function stands out in particular for clean, fresh and hygienically treated laundry, which is also pleasantly soft and protected against wear. With a reliable **BLDC motor**, **input power 1900 W** and a **capacity 6 kg**, this washing machine offers a perfect balance between performance, space and economical operation (it is classified in **energy class A**). Thanks to the spin speed of up to **1200 revolutions per minute**, you can also count on a shorter spin time. And so that you can take care of different types of fabrics with it at a high level, you have **16 different programs** at your disposal. The package also includes stickers with Czech and English labels. To keep the washing machine in optimal condition, you can use the practical **self-cleaning program**.

Even better care thanks to steam

The ECG EWS 60120 iSteam washing machine uses advanced **Steam PreWash** technology. This is a special pre-wash with steam, during which a small amount of water is injected into the drum, which completely immerses the heating element. Subsequent heating then creates steam at a temperature of 60 °C, which **penetrates deep into the fibers** of your laundry. This steam **effectively dissolves stains, removes odors and sterilizes clothes at the same time**. Dissolved impurities are then washed away from the surface of the textiles and the whole process continues with the normal washing program. And the result? Perfectly **clean, fresh and hygienically treated laundry** that remains **pleasantly soft** to the touch and **protected against unnecessary wear and tear**.

A wide range of specialized programs

This washing machine gives you **16 different washing programs**, so it can handle almost any type of laundry. Whether you simply need to wash curtains, children's clothes, bed linen or heavily soiled work clothes, there is always a suitable solution for you. The special **night program** with reduced noise allows washing even at late hours, while the **quick 15-minute program** is perfect for refreshing lightly soiled laundry when you are in a hurry. If you have small children at home, you will definitely appreciate the special **program for washing baby clothes**, which guarantees gentle care so that the washed clothes do not unnecessarily irritate the sensitive children's skin. And in households with allergies, a special **anti-allergy program** will come in handy, which can sterilize cotton fabrics and rid them of mites.

Efficient spin for faster drying

Thanks to the high spin speed **up to 1200 revolutions per minute**, a minimum of moisture remains in the laundry after the washing cycle is completed. The result is a significantly shorter drying time, whether you use a dryer or dry clothes in a traditional way. Additionally, the **Adjustable spin speed** allows you to tailor the spin to your fabric type to prevent excessive creasing or damage.

Controls that everyone can handle

You can easily choose the washing program on this washing machine using the **rotary selector**. The ergonomically designed **control panel with icons and logically arranged buttons** then allows easy setting of all other parameters, even for less technically proficient users. And last but not least, there is a **clear display** that shows you all the important information about the current wash cycle, including the remaining time, the selected temperature, the spin speed and the set functions. For your maximum convenience, the washing machine is also equipped with additional functions that allow you to set a **delayed end of washing** (up to 24 hours), provide an **extra rinse** for the laundry or **add more laundry during the initial washing phase**.

Reliable operation and long service life

The high-quality **BLDC motor** ensures **reliable and surprisingly quiet** operation of the ECG EWS 60120 iSteam washing machine. **Integrated sensors** then evaluate the current situation and, based on this, adjust the cycle so that washing proceeds smoothly, evenly and energy efficiently. And the **stainless steel Honey Comb** drum with **655 honeycomb grids** contributes to the precise care of your laundry while maintaining high washing efficiency to reduce wear and tear on clothes during the washing process. In addition, a **sound signal** will sound every time after the washing cycle has finished, notifying you that you can remove the laundry (however, you can deactivate this function if necessary).

Thoughtful drum design

The specially designed **Honey Comb** drum also ensures perfect care for your laundry. Its inner wall is made up of **655 hexagonal holes** and its shape resembles a honeycomb. This minimizes fabric wear during washing, so your clothes are protected from damage. The drum is made of **quality stainless steel**, which resists high temperatures and prevents the formation of rust. Thanks to the unique shape of the wall, the frictional force increases and thus the washing efficiency - the laundry is cleaned more thoroughly without damaging the fibers.

Fine drainage holes with a diameter of 2.5 mm additionally help to lock the fibers of the fabric and ensure a gentle and efficient spin.

Safe and economical operation

The ECG EWS 60120 iSteam washing machine is equipped with a **safety child lock**, which prevents inquisitive children from accidentally changing the settings. The **Automatic door lock** (it locks during the washing cycle) prevents accidents or water leaks. And a guarantee of safe operation is the fact that the design of the washing machine meets all the necessary European safety norms and standards. Because this washing machine also falls into **energy class A**, it will also please you with its economical operation.
