For carefree everyday listening

The **ECG CDR 550** is a compact portable radio with a CD player that will become your faithful companion. Through it, you can listen to your favorite music or spoken word at home and outside. Thanks to its **elegant black design**, **compact design** and the possibility of **mains and battery power**, it fits in any environment - from the kitchen to the garden. Thanks to it, you can wake up every day to the sound of your favorite morning show. You can play your favorite CD on it while cleaning. And in the evening, you can enjoy relaxing moments on the terrace with it - listening to music from a flash drive, a podcast from a mobile phone or perhaps an audiobook from a memory card. In short, it is a device that can make you happy almost continuously.

Your favorite radio always within reach

Can't you listen to classical radio? Then you will certainly appreciate the **digital FM tuner**, which enables clear reception of stations broadcasting in the range **87.5-108 MHz**. At the same time, you can **save up to 40 of the most frequently listened to radio stations** in the device's integrated memory, which you can then tune in at any time without lengthy searching. Just press a button and the fun can begin. Optimum signal reception is ensured by the **telescopic antenna** in cooperation with **PLL** technology, while **automatic scanning** quickly finds all available stations in your area.

When the CD collection comes to life again

Do you have a CD collection at home that you haven't listened to in a long time? With the ECG CDR 550 radio, you can finally brush it off again. The **built-in CD player**, which this device is equipped with, can handle discs of the type **CD, CD-R, CD-RW, MP3 CD and WMA CD**, so you can listen to classic albums as well as your own recordings or compilations. Want to make your own playlist? The **track programming** function allows you to set the playback order according to your taste. When you get excited about one particular song, you can use the **repeat** function. And if you like to be surprised, the **random play** function will come in handy.

Digital music from a USB flash drive

Nowadays, most people have access to music in digital form. That is why the ECG CDR 550 radio also has a **USB** port. Thanks to this gadget, the device will allow you to play files in **MP3** or **WMA** format directly from flash drives. You can always have your favorite music, but also audio books or other audio content at hand and ready to play at any time.

Clear stereo sound

The built-in **stereo speakers** with a power **2× 1.5 W (RMS)** will provide you with clear, balanced and sufficiently clear and loud sound. Do you need peace? Plug your headphones into the **3.5mm output** – the speakers will automatically mute and you can listen in private. Last but not least, the **AUX** type input is also practical, through which you can use the radio to reproduce sound from your mobile phone or perhaps an MP3 player.

Intuitive controls that anyone can handle

Hate tediously studying complex user manuals? With the ECG CDR 550 radio, you don't have to learn anything complicated! **Clearly labeled buttons** and **LCD display** tell you everything you need to know. Whether you're tuning in to your favorite radio station, flipping through tracks on a CD, or just checking the time, everything is right in front of your eyes and at your fingertips.

Listen anywhere!

One of the best things about this radio is that you can take it with you almost anywhere. At home, use **mains power**, but when you go to the cottage, garden or picnic, put **batteries** in it and the musical blast is ready. In addition, the **low weight** and **smaller dimensions** make this radio an ideal companion not only at home, but also in the field. The great news is that it is a device with **energy-saving operation** – its power consumption is only **10 W** and there is also an **automatic energy-saving function** (the radio automatically switches to standby mode in case of long-term inactivity, thereby saving energy).
