Healthy cooking without compromises

Treat yourself to delicious and perfectly crispy dishes without unnecessary fat. The hot air fryer **ECG AF 4000 Simply Fry** works on the principle of **3D circulation of hot air**, and thus allows you to prepare food with a minimum amount of oil - in short, healthy, tasty and modern. You can look forward to fries, chicken wings, vegetables and irresistible desserts. The device is capable of frying, baking and baking - you can do all this in one single appliance and without unnecessarily used fat, which you would have to complain about.

Ideal capacity for the whole family

With the volume of the removable frying basket **3.8 liters**, you can prepare enough food for the whole family or a small celebration with friends. The great news is also the **non-stick surface**, thanks to which the food does not stick and the maintenance of the fryer is extremely simple.

Easy and intuitive operation

Simple manual control allows you to **set the frying time** and choose exactly the temperature required by the dish - you have a range **from 80 °C to 200 °C**. At the same time, you are in control of the frying process via **light and sound signaling**. The device informs you about its operation and temperature and also informs you in time that frying is over.

Safety always comes first

The ECG AF 4000 Simply Fry hot air fryer includes a **thermally insulated handle**, which is safe to touch even during operation. **Non-slip mats** in turn ensure the stability of the appliance and minimize the risk of tipping over on the work surface. And of course there is also **automatic shutdown**. The fryer works with **1300 W** power and is connected **to a classic socket**. The length of the supply cable is **75 cm** sufficient.

A compact, stylish and reliable helper

Compact design with dimensions **32.8 x 31.7 x 25 cm** and timeless design with **black-silver finish**. These are the features that make this hot air fryer an appliance that simply cannot be resisted. It will not take up too much space in your kitchen, and thanks to its elegant appearance, it will fit perfectly among other appliances and into any interior. However, the most important thing is of course its **reliability and great functionality** - whether you are preparing traditional fries, crispy meat, roasted vegetables or muffins, it will allow you to cook tasty, fast, healthy and without unnecessary effort.
