

## ECG AF 8020 Ai Slim Fry

### Hot air fryer

Product code: 100002129691

EAN: 8592131000629

- Healthier frying thanks to 3D hot air circulation technology
- AutoProgram AI Smart mode for automatic temperature and time adjustment
- Economical Slim design and large 8 l volume for space saving and large portions
- Transparent frying basket for an instant overview of the degree of doneness
- Digital touch control with display for easy operation

- Hot air frying technology that allows healthier preparation of your favorite fried foods (from fries to chicken fingers to muffins)
- Possibility of frying with minimal or no fat
- AutoProgram AI Smart mode (for selected foods, the fryer automatically sets the optimal temperature and time based on the weight for a perfect result without your intervention)
- 6 preset automatic programs for different types of food (frozen fries, chicken fingers, shrimp, steaks and chops, muffins and cakes, fish)
- Acoustic and visual warning of the recommended turning or mixing of ingredients during cooking for even better results
- Manual program, within which you can set the exact temperature and frying time
- Smooth temperature adjustment in a wide range of 100-200°C, which allows you to prepare a variety of dishes, from gentle heating to intensive frying

- A timer that can be set for up to 60 minutes (with automatic shutdown and sound signal when finished)
- Heating / fast cooking mode (by holding down the preset program button for 2 seconds, you can activate a fast 3-minute program)
- Advanced 3D hot air circulation technology, which ensures even heat distribution in all directions for perfectly crispy and cooked dishes
- Economical Slim design, thanks to which the appliance can be used even in smaller kitchens (it is a narrow fryer with a width of only 26.5 cm)
- Large volume of 8 liters thanks to a spacious long basket – the ability to prepare multiple portions or larger pieces of food at once
- Frying basket with a transparent window, which brings a unique opportunity to monitor the entire frying process (and check the degree of doneness of the food) without opening and interrupting the program

- Intuitive control thanks to a digital touch panel with a display that shows you the current temperature and time
- Removable basket with a non-stick grate that is easy to clean
- Power input of 1700 W as a guarantee of fast and efficient frying with optimal energy consumption
- Electricity consumption in standby mode < 0.5 W
- Anti-slip feet that guarantee the stability of the appliance on the work surface (even during intensive use)
- Safety function of automatic shutdown in case of removing the basket from the fryer during cooking
- Heat-insulated handle that guarantees safe handling of the frying basket (even during operation)
- 100cm power cable that ensures flexibility when placing the fryer in your kitchen
- Elegant black-and-silver design (the fryer is made of high-quality plastic and metal) that will fit into any interior without any problems

- Connection to a classic socket (power supply 220-240 V; 50/60 Hz)
- Compact design with dimensions of 29.5 × 26.5 × 46.8 cm (a great choice even for smaller kitchens)
- Weight only 5.2 kg

## Technical specifications

Input power (W)	1700
Voltage/Frequency (V/Hz)	220-240 ~ 50/60
Heat isolated handle	Yes

## Product specifications

Container capacity (l)	8
Temperature range	80-200°C
Variable temperature	Yes
Temperature control	Yes
3D heating	Yes
Rice cooker	No
Pilaf	No
Baking	Yes
Jam	No
Boil	No
Stewing	No
Steam	No
Frying	Yes
Warm	No
Slow cooking	No
Intuitive display	Yes
Delayed start	Yes
Control mode	Digital touch buttons
Maintaining the temperature after cooking	No
Digital Timer Setting	Yes
Sound indicator	Yes
Power light indicator	Yes
Removable bowl	Yes
Bowl surface	Non-stick
Transparent lid	No
Non-slip feet	Yes
Removable power cord	No

## Design

Colour	Black/Silver
Material	Plastic PP/metal

## Accessories

Stirring paddle	No
Spatula	No
Grilling grid	No
Fry basket	Yes
Steamer	No
Measure cup	No

Scoop/Ladle	No
Ladle holder	No

WIDTH (MM)	265
HEIGHT (MM)	295
LENGTH (MM)	468
WEIGHT (KG)	5.2

## Weight & dimensions (Brutto)

WIDTH WITH PACKAGING (MM)	340
HEIGHT WITH PACKAGING (MM)	525
DEPTH WITH PACKAGING (MM)	365
WEIGHT WITH PACKAGING (KG)	7,7

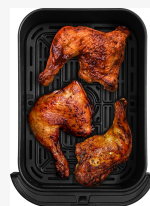

## Deep frying that's healthier and smarter – thanks to hot air and AI

The **ECG AF 8020 AI Slim Fry** hot air fryer represents a breakthrough in home cooking. And for two reasons! Firstly, it is thanks to the **3D hot air circulation** technology, which allows you to prepare your favorite fried dishes with a minimum of fat, or even without it altogether. Secondly, there is the unique **AutoProgram AI Smart** mode, which automatically sets the optimal temperature and time for selected dishes for you. Just select the type of food (from frozen fries to chicken fingers and shrimp to muffins) with one touch and the fryer will choose the ideal conditions for a perfect result based on the weight of the ingredients inserted. Without having to guess the right settings, you will enjoy dishes that are crispy on the outside and juicy on the inside.

## Narrow design but plenty of space inside

The unique **Slim design** cleverly combines compactness with an exceptionally large volume - the internal capacity of this fryer is an impressive **8 liters**. It is a narrow appliance with a width of only **26.5 cm**, which can easily fit into a smaller kitchen. Its **long inner basket** offers enough space for preparing multiple portions or even larger pieces of meat. Thanks to the well-thought-out design, by purchasing the ECG AF 8020 AI Slim Fry fryer, you will get maximum capacity with minimal space requirements in the kitchen. The device will also appeal to you with its **elegant black-and-silver design**, which combines elements **made of metal and high-quality plastic**.

## Automatically, manually and accelerated

The ECG AF 8020 AI Slim Fry fryer offers **3 modes of use** adapted to different cooking needs. The **AutoProgram AI Smart** mode represents the most modern way of preparing food - just select one of the six preset programs (frozen fries, chicken drumsticks, shrimp, steaks and chops, muffins and cakes, fish) and the fryer automatically sets the optimal temperature and time according to the portion size. The **Manual mode** gives you complete control over the cooking process with the ability to individually set the temperature (in the range of 100-200 °C) and time (up to 60 minutes) according to your preferences. For quick heating or finishing food preparation, the **heating / rapid cooking mode** is used, which is activated by long pressing the preset program button and automatically sets the time to just 3 minutes at the optimal temperature.

## Deep frying under your supervision

One of the advantages of this air fryer is the **transparent window** on the frying basket, which allows you to monitor the entire cooking process without having to interrupt the program in progress. At any time, you can check exactly how your food is being prepared, check the degree of doneness and have control over the quality of the result. This feature is especially useful when experimenting with new recipes or when preparing dishes that require precise timing.

## Safety as a matter of course

The ECG AF 8020 AI Slim Fry hot air fryer is equipped with a **safety lock** that automatically switches off the appliance when the frying basket is removed during operation. Another important element is the **heat-insulated handle**, which allows safe handling even during frying. And last but not least, the **anti-slip feet** that ensure the stability of the appliance on the work surface also guarantee trouble-free operation. Of course, this fryer also has an **automatic switch-off** function after the program is finished, which will always alert you with an **sound signal**.

## Modern controls for your convenience

Thanks to the **digital touch panel with an intuitive display**, you can easily operate the ECG AF 8020 AI Slim Fry hot air fryer. The display shows everything you need to know about the frying process, and the **sound and light signals** clearly inform you about important stages of the process (for example, acoustic and visual warnings are practical for recommending turning or stirring the ingredients during cooking for even better results).

## 3D circulation for perfect results

Advanced **3D hot air circulation** technology ensures even heat distribution in all directions. Hot air flows around each piece of food, creating a **perfectly crispy crust while maintaining juiciness inside**. With this technology, you can achieve results comparable to professional kitchens at home.

### Easy maintenance and cleaning

The **removable basket with non-stick grid** makes maintenance much easier. The smooth surface prevents food residue from sticking and allows for quick and efficient cleaning. This means that the fryer always remains in perfect condition and ready for the next use.

### Reliable, energy-efficient and versatile

With a power input of **1700 W**, this hot air fryer offers an optimal ratio between performance and energy consumption. The **100 cm power cable** provides sufficient flexibility when placing it in the kitchen. And the temperature range **100–200°C** with **continuous adjustment** covers all common food preparation methods - from gentle heating to intensive frying at high temperatures.

### Almost unlimited culinary possibilities

The ECG AF 8020 AI Slim Fry air fryer opens up a world of healthier cooking without excessive use of fat. You can easily prepare crispy **fries** loved by children, juicy chicken wings baked evenly on all sides, and perfect fish or shrimp. However, the fryer can also bake **cakes, quiche** or **delicate desserts**. And it can also quickly prepare **filled snacks calzone** from ready-made dough. After all, you can also prepare foods that can be prepared in a conventional oven in a hot air fryer. This hot air fryer is simply the perfect combination of versatility, modern technology, practical design, and reliable performance. This will allow you to cook everyday, resulting in healthier and tastier dishes without using excessive amounts of oil.
