

ECG SP 4030 Glass

Food chopper

Product code: 100002131896
EAN: 8592131000957

- A glass container with a volume of 1.5 l, which can also fit a larger amount of ingredients
- Top 400W motor with 2 speeds for easy chopping of fruit, vegetables and meat
- High-quality stainless steel blades with an S-shaped construction for even more efficient chopping
- Anti-slip mat, protection against overheating and safety lock
- Intuitive button operation and simple cleaning

- Easy chopping of a wide range of foods, from fruit and vegetables to meat
- Top 400W motor that guarantees high performance
- 2 speed levels, thanks to which you can adapt the chopping to different types of ingredients (the 1st level is suitable for chopping soft ingredients, the 2nd level can be used for chopping harder foods such as meat or carrots)
- Quality stainless steel blades with an S-shaped construction for even more efficient chopping
- A large transparent glass container with a volume of 1.5 liters, which can accommodate a large amount of ingredients
- Simple button control (on the top of the mower)
- Security lock
- Anti-slip mat for perfect stability
- Built-in motor overheating protection
- Protective knife covers that protect the blade during storage and prevent accidental injury
- All components can be disassembled for easy cleaning
- Possibility of washing the glass container in the dishwasher
- The package includes a practical spatula for easy removal of mixed ingredients
- Elegant design combining black and silver with a transparent container design
- Dimensions 22 × 17.5 × 33.5 cm
- Weight 1.99 kg
- Connection to a standard outlet (220-240 V; 50-60 Hz)

Technical specification

Input power (W)	400
Voltage/Frequency (V/Hz)	220-240 ~ 50/60
Power supply	Cord
Fuse	Yes

Product specification

Bowl Capacity (l)	1.5
Bowl type	jacket
Blades type	Stainless steal
Pulse function	Yes
Turbo function	No
Fruit chopping	Yes
Vegetable chopping	Yes
Meat chopping	Yes
Ice crushing	Yes
Safety fuse	Yes
Dishwasher safe	Yes
Non-slip mats	Yes

Design

Colour	Transparent/White/Green
Material	Glass , Plastic

Accessories

Spare blades	No

Weight & dimensions

WIDTH (MM)	188
HEIGHT (MM)	220
LENGTH (MM)	255
WEIGHT (KG)	1.77

Weight & dimensions (Brutto)

WIDTH WITH PACKAGING (MM)	220
HEIGHT WITH PACKAGING (MM)	335
DEPTH WITH PACKAGING (MM)	175
WEIGHT WITH PACKAGING (KG)	1,99

It helps with chopping fruit, vegetables and meat

Do you love cooking, but would still like to make it as easy as possible? Then we would like to introduce you to the **ECG SP 4030 Glass** food chopper, which can significantly speed up and simplify the daily preparation of food in your kitchen. Thanks to a **powerful 400W motor** and a **thought-out design**, this practical helper easily handles a variety of ingredients - you can use it to chop everything **from fresh fruit to meat to harder vegetables**, such as carrots. Easy, convenient and effortless. The package also includes a **practical spatula**, which will help you easily remove all the processed ingredients from the container. Thanks to this, you minimize food waste and use every ingredient to the fullest.

Elegant glass container with a large volume

The central element of this chopper is a **transparent glass container** with a volume of **1.5 liters**, which allows you to process even larger portions of ingredients at once. The glass used is not only **hygienic and easy to clean**, but thanks to its transparency, it also gives you a perfect overview of the chopping process. You can safely **wash the container in the dishwasher**, which makes maintenance much easier.

Powerful motor with two speeds

The ECG SP 4030 Glass food chopper is equipped with a **powerful 400W motor**, which ensures reliable and efficient operation of the device. At the same time, you have **two gears** at your disposal, so you can easily adjust the intensity of chopping to a specific ingredient - the lower gear is ideal for delicate and softer ingredients, while the higher gear easily handles tougher vegetables or meat.

Stainless steel knives with special construction

The key to excellent results with this food chopper is the **specially shaped stainless steel blades**. Their construction is reminiscent of the **shape of the letter S**, which ensures optimal distribution of forces during chopping and enables efficient processing of many types of food. **Stainless steel** also guarantees long-term sharpness and corrosion resistance.

Intuitive control and maximum security

The operation of the ECG SP 4030 Glass chopper is extremely simple - all you have to do is select the desired speed using the **intuitive button control** in the upper part of the device. The **Safety Lock** at the same time ensures that the engine will only start if the chopper is ready to operate as it should. Also practical are **knife protective covers**, which protect the blade during storage and prevent accidental injury.

Safe operation and easy maintenance

The **Anti-slip mat** ensures this device perfect stability on the work surface during the entire chopping process. The chopper thus remains securely in place even when processing harder ingredients that require more power. And when it comes to operational safety, the integrated **motor overheating protection** is a matter of course. All parts of the ECG SP 4030 Glass chipper can be **easily disassembled**, which greatly facilitates maintenance and cleaning. The glass container is also suitable **for the dishwasher**. And since the entire device is made **of quality materials**, you can rely on the services of this mower for many years.

A wide range of uses

The ECG SP 4030 Glass chopper is an unobtrusive kitchen helper that you can use in many different situations. It is a great choice for preparing **fresh salads, fruit and vegetable purees, spreads and baby food**. And it will also be useful when **preparing ingredients for cooking and baking** or when **preparing healthy snacks**. At the same time, thanks to the large volume of the container, it can handle the preparation of ingredients for the whole family, so you will definitely not allow it at home. The device is connected **to a standard socket** (220-240 V; 50-60 Hz), weighs **1.99 kg** and its dimensions are **22 x 17.5 x 33.5 cm**. At the same time, you will also appreciate the **elegant design** combining black and silver colors with the transparent design of the container - thanks to its timeless appearance, the cleaver will easily fit into any kitchen.
