

ECG ERM 10857 WE Refrigerator

Product code: 100002197459

EAN: 8592131001329

- Monoclimatic refrigerator
- Energy class: E
- Total volume: 133 l
- Climate class: SN/N/ST
- Energy consumption: 90 kWh/year
- Noise level: 38 dB (noise level C)
- Recommended set temperature inside the refrigerator: 4 °C
- Static cooling system
- LED lighting
- Manual defrosting of the refrigerator
- Manual (mechanical) temperature adjustment
- 3 glass shelves
- 1 fruit and vegetable drawer
- 3 door compartments
- Reversible door opening
- Recessed handle
- Adjustable height of legs / stability compensation
- Product dimensions (h × w × d): 85 × 55.1 × 57.5 cm

Compact dimensions and economical operation

ECG ERM 10857 WE is a **single-door refrigerator** ideal for smaller kitchens, offices, or cottages. Thanks to its **net capacity of 133 liters**, it provides enough space for everyday food and beverages without unnecessarily taking up room. An advantage is also the **energy class E**, which ensures a reasonable balance between performance and energy consumption during long-term operation. The **freestanding design** allows easy placement virtually anywhere without the need for built-in installation.

Clear and practical interior layout

The interior space is equipped with **three glass shelves** that are sturdy, durable, and easy to clean. They allow clear and flexible food arrangement according to current needs. There is also a **fruit and vegetable drawer** that helps keep produce fresh. Additional storage space is provided by **three door compartments**, ideal for bottles, beverages, and smaller food items, so everything stays neatly organized and within reach.

Quiet operation and comfortable use

The refrigerator is characterized by very quiet operation with a noise level of only **38 dB**, making it suitable even for quiet spaces such as offices or smaller apartments. Perfect visibility of the contents is ensured by **LED lighting**, which evenly illuminates the entire interior while remaining energy efficient. The temperature can be easily adjusted using **mechanical controls** that are clear, reliable, and simple to operate.

Placement flexibility and clean design

A major advantage is the **reversible door opening**, which allows the refrigerator to be easily adapted to the room layout. The **recessed handle** supports a simple and clean design while ensuring comfortable handling. Stability on various floor types is provided by **adjustable feet**, which enable precise leveling of the refrigerator for smooth and quiet operation.
