

ECG VT 2700 Alfred

Bagless vacuum cleaner

Product code: 100002200808

EAN: 8592131001640

- Suction power 16.5 kPa
- Economical power consumption 600 W
- Easy operation, only 2.3 kg
- Range up to 11 m
- HEPA filtration, bagless

- Suction power 16.5 kPa for efficient vacuuming
- Maximum power input 600 W
- Mains power supply for continuous performance without interruption
- Long 10 m cable for convenient cleaning
- Operating radius 11 m for greater reach
- Bagless design for easy maintenance

- Dust container capacity 0.7 l
- EPA E10 filter for capturing fine particles
- Telescopic metal tube for comfortable use
- Floor brush included
- Practical 2-in-1 crevice nozzle
- Additional narrow nozzle for hard-to-reach places

- Low weight 2.3 kg for easy handling
- Compact dimensions for easy storage
- Noise level below 78 dB
- Overheat protection for safer operation
- Dimensions: 16.3 × 10.1 × 38.2 cm
- Weight: 2.3 kg

Technical specification

Maximal power input (W)	600
Voltage/Frequency	220-240 50/60
Power supply	Cord
Power cord length (m)	10
Noise level (dB)	<78
Fuse	Yes

Product specification

Nozzle type	telescopic/stainless steel
Radius	11 m
HEPA filter	EPA E10
Dust bag or dust container volume (l)	0.7
Power regulation	No
Full dust bag indicator	No
Suction power (W)	16,5 kPa

Design

Colour	Grey
Material	Plastic/metal

Accessories

Floor brush	Yes
Tapered nozzle	Yes

Weight & dimensions

WIDTH (MM)	10.1
HEIGHT (MM)	16.3
LENGTH (MM)	38.2
WEIGHT (KG)	2.3

Weight & dimensions (Brutto)

Compact helper for everyday cleaning

ECG VT 2700 Alfred is a floor vacuum cleaner that stands out with its combination of compact dimensions, low weight, and solid performance. Thanks to its **suction power of 16.5 kPa**, it effectively handles common household dirt and helps keep floors clean without unnecessary effort. Another advantage is the **maximum power input of 600 W**, which ensures efficient operation with reasonable energy consumption. This model is therefore a suitable choice for regular cleaning of apartments and smaller family houses.

Convenient use without unnecessary worries

A major advantage of the vacuum cleaner is its **bagless design**, which simplifies maintenance and eliminates the need to purchase bags. The dust container with a capacity of **0.7 l** provides sufficient space for regular cleaning, so it does not need to be emptied after every short use. Cleaner operation is also ensured by the **EPA E10 filter**, which helps capture fine dust and other impurities. A practical benefit is also the **overheat protection**, contributing to safer use.

Greater reach and better cleaning flexibility

For everyday use, you will especially appreciate the **long 10 m cable** and **11 m operating radius**, allowing you to clean larger areas comfortably without frequent switching between sockets. Comfort during use is further enhanced by the **telescopic metal tube**, which can be easily adjusted to your needs. The equipment includes a **floor brush**, a **2-in-1 crevice nozzle**, and an additional narrow attachment, making the vacuum cleaner suitable not only for open spaces but also for details, corners, and hard-to-reach areas.

Lightweight, compact and easy to handle

Einer der Hauptvorteile des Modells ECG VT 2700 Alfred ist sein **geringes Gewicht von 2,3 kg**, das die Handhabung, das Tragen und das Staubsaugen selbst erheblich erleichtert. Dadurch ist die Arbeit mit dem Staubsauger auch bei längeren Reinigungsvorgängen komfortabler. Praktisch sind auch die **kompakten Abmessungen**, die die Aufbewahrung erleichtern und Platz im Haushalt sparen. Wenn Sie einen Staubsauger suchen, der einfache Bedienung, solide Leistung und komfortable Nutzung bietet, stellt dieses Modell eine sehr praktische Lösung dar.
