A close shave wherever you are

ECG ZH 2000 2Shave Moonstone is a **foil shaver** that serves you perfectly both at home and while travelling. This **compact** helper with an **integrated battery** is ideal for moments when you want to get things done quickly without compromising on comfort or results. It is suitable **for your everyday home routine**, when you need to achieve a clean and neat appearance in just a few moments in the morning, **as well as for use while travelling**. Wherever you are, thanks to the **2 power levels**, you can perfectly adapt its operation to your needs – according to the current beard density or the sensitivity of your skin. Both the fixed and movable parts of the shaving system are made **of stainless steel**, ensuring long-term reliability and precision.

Works with cable and wirelessly

A major advantage of this men's shaver is its flexibility. It can be used both **with and without a cable**. Wireless operation is ensured by a **400mAh Li-Ion battery** (3.7 V), while mains power is provided by the **included 105 cm cable**. The shaver will serve you perfectly at home in front of the mirror, as well as while travelling, when you do not want to deal with sockets or carry too many accessories with you. Charging takes about an hour and a half and is carried out via the versatile **USB-C** interface, which can also be used to charge many other electronic devices. The built-in **LED indicator** clearly informs you about the battery and charging status.

An unbeatable travel companion

The ECG ZH 2000 2Shave Moonstone shaver is also equipped with a **travel lock**. When you pack the device into a suitcase, backpack, or bag, you do not have to worry about accidental activation, unnecessary battery drain, or other unpleasant surprises. During longer stays away from home, you will also appreciate the **long battery life** – a single charge provides up to **60 minutes** of cordless operation. Especially while travelling, you will certainly appreciate the **protective cover** with a secure **magnetic closure** and a practical **mirror** for even more comfortable shaving.

Maintenance without unnecessary complications

After use, the ECG ZH 2000 2Shave Moonstone foil shaver can be cleaned very easily. This is thanks to the **removable shaving head with foils**, which can be easily rinsed under running water. The package also includes a practical **cleaning brush** (we recommend using it before cleaning the foils with water for even more precise maintenance).

Compact and easy to handle

The ECG ZH 2000 2Shave Moonstone men's shaver stands out with its compact design measuring **75 × 52 × 28 mm** and weighing only about **95 g**. It fits comfortably in the hand, does not take up unnecessary space while travelling, and does not feel heavy during use. The elegant **combination of plastic and metal parts in a grey-black-silver design** further enhances the modern appearance of the shaver. Operation is extremely simple – everything is controlled by a single flexible button, making the use of the shaver pleasantly easy and intuitive.
