

ECG MTM 2071 W

Microwave oven

Product code: 100002200311

EAN: 8592131302532

- 20 l capacity (ideal for individuals, couples or smaller families)
- Fast heating of food and drinks thanks to 700 W microwave power
- 6 power levels to adapt heating to the situation
- Practical defrost function
- Simple mechanical control

- 20-liter capacity ideal for individuals, couples, smaller families or undemanding cooks
- 700 W microwave power for quick heating of common foods and drinks
- 6 power levels for easy adjustment of heating according to the type of dish
- Practical defrost function for easier preparation of ingredients from the freezer
- Simple mechanical control using 2 rotary selectors
- Separate power and time selector
- Timer with the option of setting up to 30 minutes

- Automatic switch-off after heating is complete
- Interior with white enamel surface for easy maintenance
- LED interior lighting for a better overview of the heating process
- Glass turntable with a diameter of 245 mm
- The turntable helps to heat food more evenly
- Noise level of acceptable 58 dB
- Safety lock when opening the door
- Automatic power cut-off when opening the door during cooking

- Rated power input 1100 W
- Operating frequency 2450 MHz
- Rated voltage 230 V / 50 Hz
- Power cord length 101 cm
- Power consumption in off state < 0.3 W
- Neutral white color suitable for any kitchen
- Compact design suitable for smaller kitchens, cottages or student dormitories
- Dimensions 24.1 × 44.6 × 31.8 cm
- Weight 9.7 kg

An indispensable kitchen helper

ECG MTM 2071 W is a compact microwave oven that is perfect for individuals, couples, and smaller families. With a capacity of **20 litres**, it provides enough space for everyday heating of lunches and dinners. Its **simple mechanical controls** make it easy for absolutely anyone to use. And the timeless **white design** of this appliance looks clean, allowing the microwave to fit seamlessly into any kitchen.

No complications – just quick heating

This microwave does not pretend to be anything complicated. It simply serves you reliably whenever you need to heat up food. Its microwave power reaches **700 W**, which is ideal for everyday household use when you want to warm meals quickly without unnecessary waiting. You have **6 power levels** available, allowing you to easily adjust the heating intensity according to the current situation or type of food – from gentler settings for delicate dishes to higher power for faster heating. The rated power consumption of this microwave is **1100 W**.

Easy to use, safe operation and defrost function

Operating this microwave oven is simple and intuitive. You only need **two rotary controls** to operate everything necessary – one sets the power level, while the other sets the time (the maximum setting of the **automatic shut-off timer** is **30 minutes**). During operation, the microwave reaches a reasonable noise level of up to **58 dB**. This makes it an appliance whose operation will not significantly disturb your home environment. Safe operation is ensured by a **safety lock** that automatically cuts off the power supply if the door is opened during cooking.

Clear interior space

The interior of this microwave oven features a **white enamel-coated surface** that is easy to clean. You will appreciate this appliance not only for its reliable performance but also for its simple maintenance. Another practical feature is the integrated **LED lighting**, which ensures that you always have a perfect view of the food heating process. An essential part of the microwave interior is also the **glass turntable**, which in this appliance has a diameter of **245 mm**. It helps distribute microwaves more evenly, ensuring more consistent heating of your meals.

Compact design

Given its dimensions of **24.1 × 44.6 × 31.8 cm**, the ECG MTM 2071 W microwave oven is also suitable for places where kitchen counter space is limited. It will therefore serve you perfectly in a studio apartment, student dormitory, office kitchenette, or holiday cottage. It weighs **9.7 kg**, making handling during installation relatively easy. Connection to the power supply is ensured by a **sufficiently long cable** measuring **101 cm**.
