ECG ETH 3001B

Electric oven

Product code: 100002171948
EAN: 8592131001244

- Possibility of cooking and baking even without a classic stove
- Oven with an internal volume of 30 l and a temperature of 100–230 °C
- Large hotplate with a diameter of 18.7 cm and a power of 1000 W
- Smaller hotplate with a diameter of 15.4 cm and a power of 700 W
- Easy control with 4 knobs. incl. the possibility of using the oven and hotplates simultaneously

- Electric table oven with 2 cooking rings in the upper part
- Ideal solution for a small apartment, cottage, office or student dormitory
- Maximum power input 3300 W
- Oven power input 1600 W
- Power of the large plate 1000 W
- Power of the small plate 700 W
- Possibility of using the oven and both plates simultaneously
- Easy control with 4 rotary knobs
- Separate regulation of the large and small hobs
- Clear operation indicators for the oven and both hotplates
- Internal oven volume 30 l
- Oven temperature setting in the range of 100–230 °C
- Stepless temperature control using a mechanical thermostat
- Suitable for toasting, baking and grilling
- Convection with air flow using a fan
- Oven function: upper and lower heating with fan
- Oven function: upper and lower heating
- Oven function: upper and lower heating
- Oven function: top heating with grill
- Oven function: top and bottom heating with fan and grill
- Diameter of larger plate 18.7 cm
- Diameter of smaller plate 15.4 cm
- Control of plates using separate rotary knobs
- Several power levels of plates from OFF to MAX
- Rotating spit for preparing grilled chicken and meat
- Rotation of the needle for even cooking
- Included in the package is a square baking tray
- Dimensions of the tray 36.8 × 26.5 × 2 cm
- Includes a rack, a grill needle and a tray removal holder
- Oven door with double safety glass
- Stronger glass more resistant to breakage
- Double glass retains heat better inside the oven
- Safe phased door opening
- Galvanized oven interior for easier cleaning
- Timeless design in a combination of black metal and glass
- Power supply from a classic socket
- Rated voltage 220–240 V
- Frequency 50–60 Hz
- Power cord length 85 cm
- Compact dimensions 36.5 × 50.5 × 35.8 cm
- Suitable for placement on a table or kitchen counter
- Weight 9.86 kg

Technical parameters

Type	electric
Voltage/Frequency (V/Hz)	220 ~ 240 / 50
Max. input (W)	3300
Cavity capacity (l)	30
Temperature range	100-230 °C

Product specifications

Automatical programs	No
Grill	No
Small grill	Yes
Top and bottom heating	Yes
Grill wirh circulation (by fan)	Yes
Display	No
Temperature control	Yes
Time control	No
Number and type of glass in the door	double glazing
Door cooling	No
Turnspit	Yes

Design

Colour	black
Material	metal/glass

Accessories

Hotplate	Yes
Grate	Yes
Grill skewer	Yes
Pulling plate holder	Yes

DEPTH WITH PACKAGING (MM)	370
WEIGHT WITH PACKAGING (KG)	11,12

When you want to cook and bake, but you only have room for a mini stove

ECG ETH 3001 B is a compact **electric oven with two hotplates** that can replace a traditional cooker. It is ideal wherever there is no space for a built-in oven and hob. Thanks to its **tabletop design** (dimensions 36.5 × 50.5 × 35.8 cm), you can easily place it on a kitchen counter or table in a small apartment, cottage, office, or student dorm. Simply connect it using the **85 cm cable** to a **standard socket (220–240 V)** and you can **cook, bake, and grill**. The **30-liter** interior offers enough space for a pasta dish, a smaller roasting pan, or a tray of dessert for the whole family. The appliance features a robust **metal body** (in an elegant black finish) and relies on **classic mechanical controls** – the four rotary knobs are easy to use even for less experienced users, while simple **indicator lights** provide a clear overview.

Roasting, baking and grilling

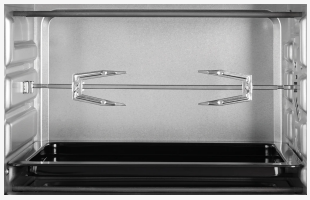

This tabletop oven offers a **wide range of heating modes**, so you can easily adjust the preparation method to a specific recipe. The following combinations are available: top and bottom heating with fan; top heating with fan; top and bottom heating; top heating and grill; top and bottom heating, fan, and grill. The temperature can be easily set using the **mechanical thermostat**, with a range of **100–230 °C** available. This makes it easy to choose the ideal setting for roast meat, baked potatoes, or a homemade cake. Intensive baking, low-temperature baking, and grilling with air circulation are all handled without difficulty. The maximum power input of this appliance is **3300 W** (oven 1600 W + large hotplate 1000 W + small hotplate 700 W).

2 hotplates at your service

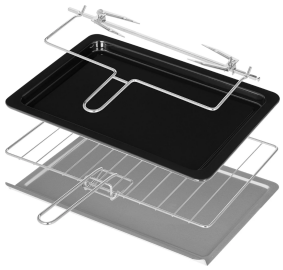

A major advantage of the ECG ETH 3001 B tabletop oven is the presence of 2 integrated hotplates, which turn this appliance into a fully functional mini cooker. The **larger hotplate with a diameter of 18.7 cm and power of 1000 W** is suitable for larger pots or pans, while the **smaller hotplate (diameter 15.4 cm, power 700 W)** is ideal for smaller cookware, preparing sauces, or reheating ready meals. Power control is purely mechanical – simply turn the knob to the desired level and adjust the heating intensity to the dish being prepared. Another practical feature is that the **oven and both hotplates can operate simultaneously**, so while the main course is baking in the oven, a side dish and sauce can be prepared on the hotplates.

Rotating spit for perfect grilling

The ECG ETH 3001 B oven also includes a **rotating rotisserie**, allowing you to easily prepare **grilled chicken or other cuts of meat with a beautifully crispy surface and juicy interior** at home. Simply place the meat on the skewer, insert the rotisserie into the inner holders, and select the appropriate temperature and mode. The **rotation of the skewer** ensures **even cooking on all sides**, so you don't have to worry about anything – while grilling, you can prepare other dishes on the hotplates or simply enjoy your free time.

Well-thought-out design, comfortable to use

The **interior** of the ECG ETH 3001 B oven is **galvanized**, ensuring excellent durability and easy cleaning. The **double-glazed door** helps retain heat inside while reducing the surface temperature of the outer glass, which is especially useful in smaller kitchens. The **safe staged door opening** helps limit the sudden escape of hot air and allows careful checking of food during baking. The package also includes a **rectangular baking tray** measuring 36.8 × 26.5 × 2 cm, a **wire rack**, a **rotisserie skewer**, and a **tray removal handle**. You have everything you need right after unpacking.
