

ECG EWF 80123 iSteam

Washing machine

Product code: 100002146581
EAN: 8592131001299

- 8 kg capacity, which is enough for a family with children
- Up to 1200 rpm to guarantee fast spinning and shorter drying times
- Steam function and special program for allergy sufferers for more hygienic and fresh laundry
- Energy class A, low energy and water consumption
- Modern BLDC motor for quieter operation, higher efficiency and longer life of the washing machine

- Classic freestanding design
- Front loading
- Washing capacity 8 kg, suitable for families with children
- Energy efficiency class A
- Energy efficiency index EEIw 41.5
- Energy consumption approx. 38 kWh per 100 cycles
- Water consumption approx. 48 l per cycle
- Spin speed up to 1200 rpm
- Reference program duration 3:38 h
- Reference program duration at half load 2:45 h
- Option to adjust the speed of rotation according to the type of laundry
- Noise level 75 dB
- Noise emission class B
- Maximum power input 1900 W
- Rated voltage 220–240 V / 50 Hz
- Recommended water pressure 0.05–0.85 MPa
- Stainless steel drum with a volume of 51.5 l
- Drum diameter 48 cm
- Honey Comb drum design for gentle washing of fabrics
- Quiet and efficient BLDC motor
- Brushless design for longer life and quieter operation
- Steam function for more efficient and gentle laundry care
- Steam helps reduce wrinkling of laundry
- Clothing remains soft and delicate after washing
- Special anti-allergy program
- Suitable for allergy sufferers, children and sensitive skin
- A total of 15 washing programs
- Cotton program
- Baby clothes program
- Night program
- Hand wash
- Shirt program
- Bedding / Curtains program
- Anti-allergy program
- Self-cleaning program
- Eco 40-60 °C
- 20 °C program
- Rinse / Spin
- Separate spin
- Jeans / Dark clothes program
- Wool program
- Quick program 15 minutes
- Washing temperature setting button
- Washing temperature setting button speed settings
- Extra rinse function
- Option to add laundry during washing
- Eco Logic function for saving water and energy
- Automatic adjustment of consumption for smaller loads

- Automatic quantity control
- Laundry balancing system to reduce vibrations
- Improved stability during spinning
- Self-cleaning program for easy maintenance
- Prevention of odors inside the washing machine
- Delayed start or end of program function
- Child lock against unwanted change of settings
- Sound signal of the end of washing
- Option to turn the sound indication off or on
- Clear control panel with display
- Rotary program selector
- Maximum door opening angle 130°
- Washing machine opening diameter 32 cm
- Door diameter 48 cm
- Inlet and drain hoses included
- Power cord length 160 cm
- Adjustable feet for stability compensation
- Dimensions 598 × 541 × 845 mm
- Weight 54.6 kg

Technical specifications

Max. power (W)	1900
Rated capacity (kg)	8
Max. number of revolutions per minute	1200
EEI	41.5
Energy efficiency class	A
Washing efficiency index	1.031
Energy consumption per 100 cycles (kWh)	38
Weighed water consumption per cycle (l)	48
Length of reference program (hrs.)	3:38
Length of the ½ load reference program (hrs.)	2:45
Noise (dB)	75
Noise emission class	B
Turned off (W)	0.5
Automatic detergent dispensing	no
Twin Jet System	no
Steam function	Yes
Motor type	BLDC
Wifi connection	no
Possibility of hot water connection	no
Self-cleaning function	Yes

Products specifications

Add laundry during washing	Yes
Stability compensation system	Yes
Laundry balancing system	Yes
Aquastop hose	no
Supply and drain hoses in the package	Yes
Delayed start/ End	Yes

Programs

Number of programs	15
Auto program	no
Temperature setting button	Yes

WEIGHT WITH PACKAGING (KG)	60,18

Large capacity for family laundry

ECG EWF 80123 iSteam is a freestanding front-loading automatic washing machine that simply won't let you down. With its **8 kg** capacity, it reliably covers your needs even if you have a family with children and washing dirty clothes is an almost daily routine in your home. Thanks to the spin speed of up to **1200 rpm**, this appliance can effectively remove water from fabrics, shortening the subsequent drying time – whether on a clothesline or in a tumble dryer. To top it all off, the washing machine also offers a range of modern features, led by a **steam prewash** for softer and gentler laundry and a **self-cleaning** function.

Economical operation in energy class A

This washing machine belongs to the energy-efficient **energy class A**. Its consumption is approximately **38 kWh per 100 cycles** and **48 l of water per cycle**. Without compromising washing quality, this appliance helps you pleasantly reduce your energy and water costs.

Steam care and allergy program

The ECG EWF 80123 iSteam automatic washing machine is equipped with a **steam prewash** function that uses steam to provide gentler laundry care, reduce wrinkles, and leave clothes feeling noticeably fresher after being removed from the drum. Steam effectively penetrates the laundry and helps eliminate fibre damage, resulting in clothes that are not only perfectly clean, but also softer and gentler. Another excellent feature is the **special programme for allergy sufferers**, designed to better remove detergent residues, dust, and other allergens from fabrics. It will be appreciated not only by allergy sufferers, but also by people with sensitive skin, pet owners, or families with children – for whom the **child lock** is also particularly useful.

Washes many different types of fabrics

The ECG EWF 80123 iSteam washing machine offers **15 programmes** covering all the most common types of laundry. You can use special modes for cotton, baby clothes, shirts, wool, bedding, curtains, or even jeans. You will certainly also appreciate the practical night programme, the hand-wash simulation function, or the quick fifteen-minute programme. **You can of course also conveniently adjust the temperature and spin speed manually** according to your current needs. Separate buttons are available for this purpose. If needed, you can also **add a forgotten piece of laundry** even while the appliance is already running, or choose a **delayed start** (or finish) of the programme.

Modern BLDC motor and stable operation

The heart of this automatic washing machine is a modern **BLDC motor**, which compared to conventional motors stands out with quieter operation, higher efficiency, and lower wear. The necessary stability of the appliance is ensured by **laundry balancing and stability control systems**.

Thoughtful drum design

Perfect care for your laundry is also ensured by the specially designed drum of this washing machine. It features a **Honey Comb** design resembling a honeycomb structure. Thanks to this, fabric wear during washing is minimized, protecting your clothes from damage. The drum is also made **of high-quality stainless steel**, which withstands high temperatures and prevents rust formation. Thanks to the unique shape of its walls, friction force and therefore washing efficiency are increased – laundry is washed more thoroughly without damaging the fibres. To top it all off, the **fine drainage holes** help lock the fabric fibres in place, ensuring gentle yet effective spinning.

Practical design, easy to use

The dimensions of the ECG EWF 80123 iSteam washing machine are **598 × 541 × 845 mm**. It is therefore an appliance that easily fits into a standard bathroom or utility room. Thanks to its **8 kg stainless steel drum with a capacity of approximately 51.5 l and a diameter of 48 cm**, it also offers enough space for bulkier laundry items. During installation, you will certainly appreciate the **adjustable feet** (for stability levelling), the sufficiently **long power cord (160 cm)**, and also the fact that both the **inlet and drain hoses** are included in the package. Operating the washing machine is easy thanks to the **clear control panel with a rotary programme selector, simple buttons, and display**. The end of the washing cycle is indicated by an **acoustic signal**, which you can disable at any time if needed.
