## Powerful helper for everyday cleaning

The **ECG VP SBS 4400 Sapphire** canister vacuum cleaner is designed to handle everyday cleaning throughout the entire home – from crumbs in the kitchen and dust in the living room to dirt from shoes in the hallway. Thanks to its **power input of 700 W** and **suction power of up to 160 W (16 kPa)**, it easily deals with common dirt on hard floors and carpets, helping your home stay visibly cleaner and fresher. A major advantage of this vacuum cleaner is its flexible design – **it can operate both as a bagged and bagless vacuum cleaner**.

## Freedom of choice: bag or container

The ECG VP SBS 4400 Sapphire allows you to choose the dust collection method exactly according to your preferences. Thanks to the combination of **bagged and bagless operation**, there is no need to compromise. Do you prefer hygiene and easy handling? Choose the **reusable 3.5-litre dust bag**, which can be easily opened using the **practical closure**, emptied, and cleaned after filling. Want to save money on bags, be more eco-friendly, and have better control over the contents? Then you can use the **2.7-litre dust container**, which can be easily emptied into the bin after filling. However, to maintain **optimal performance**, it is also necessary to regularly clean the **filter** that is part of the container. The appliance is also equipped with a **thermal overheating protection fuse**, which protects the motor and increases overall safety during use.

## Long range and comfortable use

Thanks to the **5-metre power cord**, **1.5-metre hose**, and **well-designed construction**, this canister vacuum cleaner offers an **operating radius of 7.5 m**. You can easily vacuum a standard room without constantly switching from one socket to another. The **telescopic metal tube** also adapts to your height – helping to reduce strain on your back while allowing you to reach under furniture, into corners, and other hard-to-reach places.

## Practical details

The **rubber-coated wheels** are gentle on floors while ensuring smooth movement of the vacuum cleaner. The practical **handle** makes it easy to carry between rooms. After cleaning, you will also appreciate the **automatic cord rewind button**, which neatly retracts the power cord back inside the appliance with a single press. Then simply store the vacuum cleaner away using one of the **2 parking positions** available. The appliance is also equipped with a **thermal fuse** against overheating, which protects the motor and increases overall safety during use. On the rear side of the vacuum cleaner next to the cord, you will also find a practical storage space for accessories, where the **2-in-1 combination nozzle** with crevice tool and brush is always within easy reach.

## Effective filtration for clean air

The ECG VP SBS 4400 Sapphire vacuum cleaner is equipped with a **sophisticated filtration system** that protects not only your floors, but also the air you breathe at home. The combination of a **motor filter**, a **HEPA 11 filter** (at the outlet), and a **HEPA E10 filter** (inside the dust container) captures even fine dust, pollen, tiny particles, and allergens, which will be appreciated by everyone from pet owners and allergy sufferers to families with children. When using the **dust container**, it is recommended to **clean the round filter regularly** and also **replace it** after a certain period of time. This **round filter** is additionally equipped with **another filter**, which should ideally be **cleaned after every use** so that the vacuum cleaner can maintain **the best possible performance** and **filtration efficiency** over the long term.

## Accessories for every occasion

The ECG VP SBS 4400 Sapphire vacuum cleaner also comes with a **rich collection of accessories**. Thanks to this, you can easily tackle fine dust on parquet floors, deeply embedded dirt in carpets, and pet hair. The **universal floor nozzle** allows easy switching between carpets and hard floors. The **parquet nozzle** is gentle on wooden and laminate surfaces. For dog and cat lovers, there is also a **turbo brush**, which effectively removes pet hair from carpets and upholstery. Last but not least, you can also use the **crevice nozzle** (for hard-to-reach places) and the **2-in-1 combination nozzle**. The appliance is also equipped with a **thermal overheating protection fuse**, which protects the motor and increases overall safety during use.
