

ECG Tower Fan 1 Black Fan

Product code: 00000275446

EAN: 8592131001428

- Pleasant cooling of the air in the room on hot days
- 3 speeds to adapt the ventilation to the current conditions
- Oscillation function that distributes the air more evenly in the room
- Automatic switch-off timer with setting options from 0 to 120 minutes
- Easy operation with 2 rotary selectors

- Pleasant cooling of the air in the room during hot summer days
- Column design suitable for home, office, hotel and other interiors
- Power consumption 45 W
- 3 selectable air flow speeds to adjust the ventilation intensity
- Oscillation function for more even air distribution in the room
- Practical timer with settings from 0 to 120 minutes
- Automatic shutdown after the selected time

- Easy control with 2 rotary controls
- Separate speed, oscillation and timer settings
- Great stability thanks to four quality feet
- Overheating protection for safer operation
- Protective covers for safe use
- Noise level of acceptable 59 dB
- Body made of high-quality plastic
- Neutral black design with blue control panel

- Design suitable for any interior
- Power supply from a classic socket
- Rated voltage 220–240 V / 50 Hz
- Power cable length 160 cm
- Easy to carry thanks to the integrated handle
- Stable and easy to carry design
- Weight 1.985 kg
- Dimensions 82.2 × 35 × 35 cm

Technical specification

Input power (W)	50
Voltage/Frequency (V/Hz)	220-240 – 50/60
Power supply	Cord
Power cord length (cm)	160
Fuse	Yes

Product specification

Type	Pedestal
Propeller diameter (cm)	40
Display	no
Number of speeds	3
Timer	No
Adjustable tilt	Yes
Oscillation	Yes
Power light indicator	No

Design

Material	Plastic
Colour	black

Accessories

Remote control	no

HEIGHT (MM)	822
LENGTH (MM)	305
WEIGHT (KG)	1.99

Weight & dimensions (Brutto)

WIDTH WITH PACKAGING (MM)	135
HEIGHT WITH PACKAGING (MM)	760
DEPTH WITH PACKAGING (MM)	
WEIGHT WITH PACKAGING (KG)	2,38

Treat yourself to a pleasant cooling down

Are you struggling with unbearable summer heat that even wide-open windows cannot handle? Then you have come to the right place. We would like to introduce the **ECG Tower Fan 1** tower fan, which will provide welcome relief in such situations. It was designed to improve comfort indoors during warmer days. It offers **3 speed settings**, allowing you to easily adapt its operation to current conditions – whether you prefer a gentle breeze or need stronger airflow for more effective cooling. Thanks to its **oscillation function**, the fan distributes air evenly throughout the room instead of blowing in just one direction.

Controls that anyone can handle

Operating this tower fan is simple and quick. The appliance uses **2 easy-to-read rotary controls** that anyone can operate. The first dial is used to adjust the **speed and oscillation**, while the second control is used to set the **timer**. The timer can be adjusted as needed within a range of **0 to 120 minutes**. This allows you to enjoy pleasant cooling for exactly as long as you need it. Once the set time has elapsed, the fan **automatically switches off**.

Thoughtful design

The ECG Tower Fan 1 tower fan is designed to make everyday use as comfortable and safe as possible. A **stable base with four legs**, together with **protective covers** and **overheating protection**, ensures safe operation. The **integrated handle** makes it easy to carry the fan between rooms. Flexible placement is further supported by the **160 cm power cord**. This appliance will reliably serve you wherever you need it, safely and conveniently. The fan operates with a power input of **45 W** and plugs into a standard electrical outlet (rated voltage 220–240 V, frequency 50 Hz).

Can be used at home, in the office and in other interiors

Thanks to its tower design, the ECG Tower Fan 1 is perfectly suited for **living rooms, bedrooms, offices, or even hotels**. In all these places, it helps improve air circulation without taking up unnecessary space. The appliance operates at a reasonable noise level of **59 dB**, while its **neutral white finish** with a subtle **blue control panel** easily blends into any interior. The fan body is made of **high-quality plastic**. Its dimensions are **82.2 × 35 × 35 cm** and its weight is **1.985 kg**.
