Effective cooling exactly where you need it

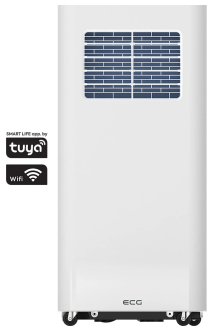

The **ECG MK 9000 Wifi** portable air conditioner is a practical solution for hot summer days when you want to quickly create a more comfortable environment at home, in the office, or at a cottage. Thanks to its **9000 BTU/h cooling capacity** and **2600 W performance**, it can effectively cool rooms up to **80 m²**, providing significantly more efficient cooling than a standard fan.

Cooling, fan and dehumidification in one

The advantage of this model is the combination of **3 functions in one appliance**. In hot weather, you can use standard cooling, the fan mode for air circulation, and practical **dehumidification** in more humid environments. The temperature can be adjusted within a range of **17–30 °C**, while airflow intensity can be adapted using **2 fan speeds**.

Modern Wi-Fi control for greater convenience

The controls are designed for maximum convenience. You have access to a **clear control panel**, a **remote control**, and the option to connect via **Wi-Fi** and the **Smart Life** mobile app. This allows you to adjust the air conditioner comfortably from your sofa, desk, or prepare a pleasant indoor climate before returning home.

Thoughtful details for everyday use

The ECG MK 9000 Wifi also impresses with thoughtful details for everyday use. A **1–24 hour timer** helps schedule start-up or shut-down times, the **automatic water evaporation system** supports more efficient cooling, and the **washable filter** makes maintenance easier. Thanks to its **handle** and **castor wheels**, the air conditioner can be easily moved wherever it is needed.
