Fast heating for everyday beverage preparation

The **ECG RK 1743** electric kettle offers a **1.7 L** capacity, making it ideal for everyday household use and preparing several cups at once. With its **1850–2200 W** power output, it heats water quickly and reliably, making it perfect for everyday preparation of tea, coffee, instant drinks, and other hot beverages.

Practical equipment for comfortable use

The kettle is equipped with a **water level indicator**, **power indicator light**, and an **ergonomic handle** that makes it easy to hold and pour. Convenient everyday use is further enhanced by a **360° swivel base** with integrated cord storage and a **70 cm power cord**, allowing you to place the kettle conveniently on your kitchen countertop.

Safety and easy maintenance

Safer operation is ensured by **automatic shut-off** and **overheat protection**. The **concealed heating element** makes the interior easier to clean, while the **removable limescale filter** helps capture deposits while pouring. The elegant combination of **brushed stainless steel** and **black plastic** also gives the kettle a modern look that suits any kitchen.
