Compact and powerful vacuum cleaner

The **ECG VP S1010** bag vacuum cleaner is small and weighs only 3.1 kg, but thanks to the 800 W power it can handle all kinds of dirt. In addition, you can easily regulate its power as needed. The handling of the vacuum cleaner is facilitated by two rear rubber wheels.

Thanks to the 5 m power cable and the total action radius of 7.5 m, you can vacuum the entire room without having to plug the vacuum cleaner into another outlet. The foam motor filter and the output **F7 HEPA dust filter** ensure perfect filtration.

Large volume dirt bag

The dust bag with a capacity of 1.5 l can hold a large amount of dirt, so there is no need to change it too often. A practical **indicator** alerts you when the dust bag is full. Compatible bags for this model of vacuum cleaner are Koma EC22S and Swirl Y 45.

In addition to the ECG VP S1010 vacuum cleaner itself and the plastic extendable tube, you will also find other practical accessories in the package. It includes **combined floor nozzle** with 32 mm diameter and a dust brush.
