

ECG MS 100 White

Weather station

Product code: 484000124958

EAN: 8592131175761

- One day weather forecast
- Indoor and outdoor temperature / humidity
- LCD display
- Signal controlled clock

- 24 h weather forecast
- Signal controlled clock
- Weather forecast using 4 conditions: sunny, partly cloudy, overcast, precipitation
- LCD display
- Time display: hours, minutes, seconds
- Optional mode: 12/24 hours
- Optional degree display: °C and °F
- Indoor temperature display, resolution: 0,1 °C, range: 0–50 °C ; outdoor: -40°C ~ 60 °C
- Outdoor humidity display, resolution: 1%, range: 20% – 95%

- Outdoor temperature wirelessly: up to 3 channels
- Indoor and outdoor temperature trend indication
- Indication of thermal comfort in three levels
- 3 channels of outdoor wireless sensors
- Button sound
- Single alarm function
- 5 minute snooze function
- Time zone: +/- 12 hours
- 8 phases of the Moon
- DST function
- Weather station:

- Power supply: DC 3 V – 2 x 1,5 V / AAA batterie (not included)
- Sensor (MS 1200):
 - Display of outside temperature and humidity
 - IPX4 waterproof
 - CH switch — sensor channel selection (1–3)
 - Wall mounting hole — allows the wireless sensor to be hung on the wall
 - Power supply: DC 3V – 2 x 1.5V / AA batteries (not included)
 - Radio frequency: 433.92 MHz
 - Wireless transmission range: max 30 m

Functional specifications

Weather forecast	1 day
Internal temperature indicator	0 °C - 50 °
External temperature indicator	-40 °C - 70 °C
Internal and external humidity indicator	yes
Measurement interval	internal/outdoor
Radio Controlled Clock (DCF)	yes
Date	yes
Alarm clock	yes
Repeat Snooze function	yes

Sensor transmission distance up to 30 m

Power supply

Main power unit	2 x AAA
Sensor	2 x AA

The rain will no longer surprise you

Do you want to have continuous information about the current weather? Reach for a practical weather station that will keep you informed of the outside temperature. However, the **ECG MS 100 White** weather station can do much more. You can conveniently control it by 6 function buttons (SNZ, SET, ALARM, UP, DOWN, CH) located at the back. The device settings are displayed on a clear black and white LCD display.

The ECG weather station **forecasts the weather** for the next 24 hours in 4 modes with icons for sunny, partly cloudy, overcast and precipitation. You will always know when to pack an umbrella or not to forget sunglasses at home. Displays indoor and outdoor temperature and humidity. It even indicates **outdoor comfort** in 3 levels.

Bonus functions

In addition to normal temperature data and information about the weather, the ECG MS 100 White weather station functions also as a **clock** (displays hours, minutes, seconds), **alarm clock** or **calendar**. The hours can be set in 12- or 24-hours format according to your preferences. You can also use the alarm clock, where the weather station also has **5 minutes snooze function**. The display also shows the date. A bonus is the display of the Moon phase.

In addition to the weather station itself, the package also includes a sensor. Both devices can wirelessly communicate with each other up to **30 meters distance**.
