Smart entertainment in Full HD

With the **ECG 40 FS02T2S2** TV, a great audiovisual entertainment will make home in your living room, from which it could be hard to break away. This smart device has a rich offer of **streaming services, internet archives and other content sources**, from which every member of your family will easily choose their own preference. Whether you're watching a movie or having fun browsing funny videos on the web, you can count on perfect picture and sound quality. Our TV boasts a great **Full HD** resolution and built-in stereo speakers with tuned **NICAM** audio.

Take advantage of the internet connection

Connect the Smart TV ECG to the Internet and a gateway to entertainment will open up just to your taste. The device has a clear operating system **Linux** in which you have available the classic **web browser**, social network applications **Facebook** and **Twitter** and also popular streaming services like **Netflix, YouTube, YouTube Kids** or **Amazon Prime Video**. You can easily and quickly get to hot series hits, videos with practical instructions and even fairy tales for the little ones. Of course, this TV also supports **hybrid broadcasting (HbbTV)** , i.e. the popular **red button**. With a single touch, you will be transported into the world of web content, where older episodes of your favourite series or, for example, broadcasts of sports competitions are waiting for you, which take place in parallel with the match you are currently watching.

TV broadcast signal of your choice

The ECG 40 FS02T2S2's **triple tuner** gives you choice from where the digital broadcast signal you're watching from the comfort of your home, comes from. The device supports both terrestrial broadcasting in modern standard **DVB-T2 (with H.265/HEVC)** , as well as **cable TV (DVB-C)** and **satelllite (DVB-S2)** . The choice is yours.

Connection ready

Game console through which you can play action shooting games, racing simulators and strategy games. Speakers providing a better class of sound. Or a laptop whose contents you can play on the big screen at any time. These are all devices which can be connected very easily to the ECG TV – just use one of the **three integrated HDMI ports**. In addition, the connecting equipment of your smart TV also has a **pair of USB ports**, which allow playing of movies and other media from flash drives.

Elegance and practicality

The TV is created in a **timeless black design** and includes an **elegant stand**, which can be easily removed if necessary. If you do so, then you can hang the TV on the wall – ECG 40 FS02T2S2 is compatible with TV holders using the standard **VESA (200 × 200)** system. But whether you put the ECG TV on a table or hang it on the wall, we are sure you will have a lot of great fun with it.
